

My Account

My Account has two new features we're very excited about. The first is the **What's my PIN?** Feature. You can request your PIN be sent to the email address we have on file in your account. This is going to display on the login screen and yes, does display on your account even if you've logged in already.

The second is an **edit your email address** form to update the email we have on file for you or create a new email address if there isn't one there already.
