It is often during later years that one regards with fond memory the days of his youth, the pleasant associations of school life, and the pranks played in school. The recollection and relation of them, then afford him a far greater pleasure than he had imagined during those youthful days that passed all too quickly; and which are to him like the memory of a rose, faded long since, but whose fragrance still lingers.

So it will be with us. How often during the future years shall we recall the friendships, the delights, the kindness of those four years we spent at Durfee! How we went to school every morning, some to Tech and some to Durfee for three years, and how, in the fourth, when Durfee became

the home of the upper-classmen, the two sections of the class were brought into close association! It was then that we all climbed the hill, entering this same door, just as we shall now, meeting and greefing, as we come up the stairs, the same old friends each day!

It is the purpose of this volume to recall pictures of those happy student days; and if it can, when years have passed, bring back the old Durfee spirit, and enhance the friendships of former classmates, the mission of the Record Staff in preparing it will have been accomplished.

Let us now open the door to the past, and may memory often bring us, during the future, back to that old building for many happy reunions.

MARGARET BLANCHE ALBERT

"Peg" "Peggy"

First we will present to you "Peg," a graduate from the Susan H. Wixon. "Peggy" says her hobbies are dancing, swimming and having a good time in general,—but not studying. However, since Margaret joined our class, she has become particularly noted for her wonderful dances and her ability to "rag the scale" for jazzing. "Maggie" thinks of going to Sargent's next year, and in the future plans to teach physical culture. But whatever she does, we are sure she will make hosts of friends.

"Happy am I; from care I'm free!
Why aren't they all contented like me?"

MARY LOUISA ALDRICH

"Weeda"

Louisa came from Westall, and her illustrious history is full of shining marks. Like the rest of us, she is serious at times, and ready for fun at others. It is not alone in the classroom that "Weeda" excels, for when it comes to swimming, playing golf and tennis, or sailing a boat, she does them all with equal grace and ease. Her help on the Record staff has been indispensable.

Next year we expect to hear that Louisa is conquering some new field at Smith.

"Her ways are ways of pleasantness,
And all her paths are peace."

PAULINE ANTHONY

"Polly"

"Pauline? Who is Pauline?" If we say "Polly," perhaps you will recognize this young lady from the Tiverton Grammar. In spite of all the trials she has undergone on the "Famous Bay State" from Newport, she has managed to be cheerful and happy. Pauline is very fond of all outdoor sports, rather undecided about the future, but we hope to hear of her prosperity!

"May you live all the days of your life"

RUTH GOODWIN ANTHONY

"Ruth A" "Anthony"

And now comes another Westall graduate, "Ruth A," one of the most popular and clever girls of her class. Ruth is not only a delight to her friends, for whom she is always planning some fun, but is also a pleasure to her teachers, as she is one of our highest "A" pupils. "Anthony's" hobbies are reading, sailing and golf—but she is especially good at tennis and swimming. For the first three years Ruth played first violin in the Durfee Club, and next year we expect her to head the Freshman Musical Club at Vassar.

"As merry as the day is long"

ETHEL HEYWOOD ARDEN

"Yes, Doctor, he is better today." Enter Ethel, from the Davenport Grammar School to Tech—Ethel likes to cook and can really do it! She leaves us for the Massachusetts General Training School to be a nurse. Now in four years' time on hearing of her graduation from that institution don't all get sick at once, because she can only attend to one at a time. Good luck to "Durfee's Florence Nightingale."

"There is majesty in simplicity that is far above the quaintness of it."

BETSEY DEANE BARKER

"Bess" "Bessie"

Allow us to introduce to you, reader, this dear girl. We are indebted to the Lincoln School for sending us this prize, and very lovingly have we guarded it here at Durfee. For our trials and troubles we have ever found balm in the wholesome advice and friendly sympathy that only a girl of "Bessie's" disposition could give. "Bessie" has been very popular while here at Durfee for the pleasure she has given with her musical performances. Like many a famous actress. she has danced her way into our hearts, there to remain. We know, Betsey, that you will succeed at Bridgewater, for who could help it, when with one voice your friends shout. "Betsey Barker, we wish you luck."

"Very Good, Bessie"

RAYMOND TALLMAN BARKER

"Honors do not turn his head"

"Ray" came to us in 1915, a graduate of the Lincoln Grammar School. As an afhlete he has won wide renown, his chief hobby being high jumping, of which he is champion of Southern Massachusetts. Always ready to help a friend, and always "there" with a smile, "Ray" is one of the most popular boys in the school. Although he has not decided what he will do after graduation, knowing his conscientiousness and perseverance in duty, we have no fear as to his future.

PAUL OSCAR BARRE

"Barrie"

Coming from the Assumption College of Worcester, Paul spent three years at Tech, and a fourth at Durfee. He is a quiet member of the class; yet he has become friendly with a great many of his classmates. His hobbies are autoing, skating and boating, in each of which he is quite proficient. He is considering some business school for next year, but whatever he attempts after leaving Durfee, we are sure he will succeed.

"Good things to think about are thoughts of home"

WILLIAM HAROLD BARRY

"When old Bill Barry lets his feet go sally, Round about and in and out, a maze, Everyone turns to look, wondering if, by any fluke

He'll fail to get them tangled, or ablaze, "Bill" gets jollied about those feet considerably, but how we wish we had them! If it weren't for them. Durfee would have been minus one of her best football and baseball players. And as for dancing! Natural ability, some day. Others, feet; We agree with noth, for the combination makes perhaps the best male dancer at our drills and dances, As for his scholastic career,—about four years ago "Bill" glided down here from the Highland School, and he labored diligently for almost four years. Some time last winter, however, "Bill" quietly vanished into the realm of commerce and manufacture, where he is getting a start ahead of those fellows who will take up that line next year.

"And he can sing like he can dance!"

MARGARET DOVER BARTON

"Barty"

When "Barty" came to Durfee from the Fowler School she was as inconspicuous as the rest of us; but when she graduates this year, she will leave behind her heaps of friends, who will always think of her as full of fun, thoughtful and, yes, studious. Margaret is fond of swimming, skating and tennis, but above all else she loves music. Next year "Barty" plans to go to Bridgewater to study kindergarten, but whatever she does she will carry with her the best wishes of her classmates.

"A merry heart maketh a cheerful countenance"

CHARLES GIFFORD BERTENSHAW

"Charley"

"Charley" graduated from the Highland Grammar School and wended his way to our portals of learning. Charles is a very quiet member of our class, but has gained many friends during his period here. He is undecided what his next step in life shall be, but we are sure that wherever he goes he will make good.

"He passes his hours among his books"

LUCIA BLISS

"Lu" "Blissy"

What shall we say about "Blissy"? We asked her, and she said, "Oh, anything, only leave me alive," Certainly "Ln" is no "dead one." She was e'er a bright spot about Durfee High, and has the enviable distinction of having few, if any, enemies. She declares that dancing is her specialty, but we notice she is also game for any other sport.

Next year Wheaton will be her Alma Mater, where we all wish her the best of success.

"Not that she loved study less, But that she loved fun more."

HELEN TERESA BOGAN

We are indeed grateful to the Highland School for sending Helen into our midst. She is noted for her smiles and sunny disposition. Helen is always ready for a good time, and is the cause of much merriment for us all. Outdoor sports have a great attraction for her, especially skating. Helen claims to be a man-hater, but we hardly think she lives up to the part. Drawing seems to be a gift of Helen's, and some day we hope to hear of her as a famous artist.

"She is no plug and yet she's elever,
And as for fun nou'll beat her never."

EDWARD ELLSWORTH BOOTH

"Ed" 'Eddie"

Eddie is a quiet, good-natured person, but nevertheless has lots of "pep.' He graduated from the N. B. Borden School before coming to Durfee. In the track meet at Boston last spring Ed showed some of Boston's crack athletes how to broad-jump and incidentally was one of Durfee's two point winners. Eddie is also quite a swimmer, while tennis is another sport which has great charms for him. What school will claim him next year Eddie has not yet decided, but we may be sure he will be welcomed wherever he may go.

"Nothing is impossible to a strong will"

DONALD DURFEE BORDEN

"Don"

Don, who is a graduate of the Westall School, began his high school career at Tech, but was transferred with the rest of his class to Durfee in his senior year. During his sophomore and junior years Don was the leader of the Tech orchestra. He is not only an excellent violin player, but a great favorite among his fellow classmates. His spare time is spent studying or attending the theater. As yet he is undecided as to his future, but we are sure he will be successful in anything he undertakes.

"A good name will shine forever"

VEGA BRANZELL

"Ve" "Veda"

Vega, better known to her classmates as "Ve" or "Veda," came to us from the William J. Wiley School to enlist in our Normal course. Dancing and swimming are "Ve's" favorite holbies. Because of her notable swimming and diving feats she has won the title of Annette Kellerman II. When "Ve" leaves Dnrfee's spacious halls she will take up a business course to prepare herself to be a stenographer.

"A swim! A swim! My kingdom for a swim!"

#### CHRISTOPHER LEO BRODERICK

"Chris" "Brodu"

Hush! do not disturb the tranquility about this young man, one of our quietest members. "Chris" came to us from St. Patrick's School, and has gained many friends because of his quiet, mannerly ways. During his course he has proven himself specialized in all branches of study. In history especially he has shown that he is a proficient lad, and many times has he startled the members of the class with his brilliant recitations. Outside of school hours "Brody" is one of Hudner's first class meat-cutters, and we feel that this circumstance will turn Christopher to the School of Surgery. But whatever his intentions may be, we all wish him the best of luck when he undertakes life's important tasks.

"He who is tranquit accomplishes much"

CLARA ALICE BROMLEY

"Clare"

"Clare" came to us from the Susan H, Wixon School. Although she says music is her holby, we think she likes studying pretty well, for there isn't ever a question asked in class that Clara isn't ready to answer. Like all the rest of the clerical division, Clara intends to become one of the private secretaries who will make the name of Durfee famous in the world of business. Good luck to you, Clara.

"Labor conquers all things"

ELMER JOHN BROUTHERS

"ShorIn" "Kid"

Elmer graduated from the Fowler School and started in at Tech, but was transferred with the rest of his classmates to Durfee in his senior year. Elmer isn't interested in anything special, but he intends to be a mechanical draughtsman on leaving school.

"Diligence is the mistress of success"

ELIZABETH BUCK

"Beta"

"Beta" is a quiet little maid who minds her p's and q's and crosses her t's, and her sunny smile is loved by everyone. She brought a splendid record with her from Westall, and has kept the same standard through B. M. C. D. Moreover, she is a wonder at tennis, and excels in other outdoor sports.

"Beta" is another next year "Smithite," and she takes with her the best wishes of her class.

"Her laughing cheerfulness throws Sunlight on all the paths of life."

LANPHEAR BUCK

"Lannu"

"Lanny" comes next in line, as bright as any gem; for we haven't spelled his name wrong, and used an "m" for "n." Lanphear came from the Westall School, and for several years delighted our ears with the exquisite harmony of his violin. But now he plays a different tune, announcing his arrival every morning with an inharmonious clang. Would that his efforts in this case were as welcome as in baseball, tennis and hockey. In these lines, as well as in many other sports, he is very skillful; and next year, when he enters Exeter preparing for Williams College, we will surely hear from him.

"Ring out, wild bells"

RUTH BUFFINGTON

"Buffy"

Everybody that knows "Buffy" at all knows her as a good little sport.—always game for any kind of a stunt, an excellent horse-back rider, a determined little swimmer, a mighty good dancer, and such a surprising sort of person to know, having as many chums as a rainbow has colors!

"Custom cannot state her infinite variety"

JOHN BURKE

"Jawn"

John graduated from the Westall Grammar School with the highest average in scholarship in his class. He has continued his good work, maintaining his high standard, and is still unusually proficient in all his studies. Although John's disposition is naturally quiet and retiring, he has made many friends in his high school career. This modest student possesses great power of concentration, and we are sure he will be successful in whatever he undertakes.

"He speaks little, but to the purpose"

JAMES HARRY CALLAHAN

"Jimmy" "Cat"

"Jimmy" came to us via the Staunton Military and Maryland Academy route. Although he has been with us but one year, he has made a host of friends. He is a very efficient orator, as proven by his demonstrations in the Assemblies. He is a lieutenant of the Cadets and has made a fine showing at the Drills. His intention for the future is the study of law, and there is no doubt but what we shall all be glad to call on "Jimmy" when in trouble, for he'll be sure to get us out of it by means of his invincible arguments.

"He spake, and the multitude was awed by his words"

J. WARREN CAMPBELL

Hail to this young mathematician! Although he is one of Mr. Pope's stars, we often hear of his ability in Miss Locke's class, which would still be greater if he did not spend so much time talking with the pretty girls. Warren graduated with much credit from the N. B. Borden School and then showed his good judgment by coming to Durfee. His hobbies are swimming and shows, and in the former he is a regular shark, This ambitious young man intends to become a civil engineer, and the best wishes of the class go with him to Carnegie next year.

"Some men are born great, others are mathematicians"

GORDON CAPEN

"Silent but wise"

Gordon came to us from the Susan A. Wixon School, a very quiet and unassuming lad. However, during his four years' sojourn here, he has proven that a policy of "saying little, listening much, brings about knowing a lot" is a very good policy, as his rating will show. As a result of his faithfulness to study and to the High School Cadets, of which he was a member for four years, he was made captain of Co. B of the cadets in his senior year.

If you continue to be governed by the same qualities, Gordon, we shall not be worried over your future.

ELIZABETH CARR

"Libby"

Here is "Libby," the only "Libby" Durfee contains. And everybody admits her a good sport and lots of fun. She is an enthusiastic horsewoman and has become a familiar object in her riding suit. Next year she is going to Miss Howe and Miss Marot's school. We feel sure that she will keep the school awake, as she is never quiet for long at a time. She is accustomed to looking on the bright side of life, and as a result makes a good companion.

"A girl with eager eyes and yellow hair"

EARLE CHASE

"Parson" "Lightning"

Earle graduated from the Fowler School in 1915 and entered Tech the following fall. He was transferred with his classmates to Durfee for his senior year. Earle's hobby is tinkering around automobiles, and many of his spare moments are spent drawing designs of racers. He is also something of a sportsman, being a member of the "Rod and Gun" Club of Fall River. Earle plans to enter the Boston Auto School next fall, where he will study automobile drafting. He has our wishes for a successful career.

"Where there is a will there is a way"

MINNIE CHAVENSON

Enter Minnie, one of our jolliest girls. Coming from the Davis School, Minnie brought with her the same attributes that made her popular there. Her bright and cheerful smile is never forgotten, and even helps some when we are struggling with a problem in Geometry. Minnie is particularly interested in skating and tennis or perhaps—a recitation in French. Her ambition is centered in teaching, and she hopes to enter Wellesley next fall, where we wish her the best of luck.

"Gain not base gains; they are the same as losses"

MARGARET ELIZABETH CHEETHAM

"Peggu"

We almost lost our "Peggy" this fall when she started in school at Classical High in Providence, but the charms of Durfee proved too strong for her, and back here she came about four months ago. Everybody was glad. "Peggy" isn't at all obtrusive, nor could you call her "quiet." She's just a happy medium. She knows how to think up the greatest games to play, and how to have the best fun, and she is just the person to help you out whenever you get into trouble. Lucky Pembroke, to get Margaret next year!

"So joyously, so maidenly, Her demeaning— Merry Margaret, This midsummer flower."

ALICE CLEMENT

"Al"

When "AI" came to Durfee after graduating from the Davenport School, she selected the Normal course as best suited for her taleuts. She has made a very good record in our midst, and has won the respect and esteem of all her classmates. Her favorite hobbies are cooking and "burning midnight oil"—doing what, "AI"? Next year, if all goes well, we expect to hear of her in Bridgewater.

"Knowledge is power"

HENRIETTA COOK

"Cookie" "Henry"

Why, bless me, if here isn't young Henrietta, grinning and fidgety as usual, all ready with one of those funny jokes! Four long years ago the Highland School decided it had langhed enough, and so sent "Henry" here to Durfee to be our class joker. But jokes are not the only things that occupy her attention. She is a wonder on skates, and a very graceful dancer. And before very many years she will, no doubt, be distinguishing herself and her class by exhibiting art successes of her very own!

"Come, and trip it as you go, On the light fantastic toe."

MARION EMILY COOK

"Cookie"

This jovial little lady is another product of the N. B. Borden School. Marion has not manifested an overpowering devotion for study, but would much rather be swimming, dancing or fishing. Marion has not decided whether to be a nurse or a stenographer, but we all know that she will still continue to make life cheery for those around her.

"A little work, a little play
To keep us going—and so good day!"

MARJORIE COOK

"Marae" "Cookie"

The curtain rises and "Cookie" enters, our Ace of "A's." "Marge' came to us from the Highland School with a reputation of being an exceedingly good scholar, a friend to all, and, what's more, a sport. We have found her all this and much more besides. "Cookie" is especially fond of tennis, skating, dancing and hiking—but is, in fact, good at all sports. This year she has especially proved her literary ability on the Record Book Staff. Surely she will be most heartily received at Holyoke next year.

"Knowledge is power"

JAMES COUGHLIN

"Jim" - "Cocky"

Lieutenant James, as Mr. Pope calls him, is some boy. Jim is second lieutenant in his company, and is well liked by all the cadets under him. He entered Durfee four years ago from the Davenport School, and his noble (?) countenance may still be found wherever there is a crowd of the "boys." Jimmie is a good basketball player, and had there been a team this year, he would surely have had place. However, he especially shines in baseball, holding down second base in fine style, and who of the nine will forget his jollity and impromptu entertainments on the trains, when we made trips? Although his future has not yet been decided, we wish him the best of luck in whatever he may do.

"One touch of laughter makes the whole world spin."

RUTH CLARKE COWELL

"Ruthie"

"Ruthie," one of our class musicians, came to us from Westall and has proved to be one of the most faithful, studious girls of her class. Ruth says her hobbies are swimming, rowing, dancing and playing the piano. Next year she will go to the New England Conservatory of Music, and in the future plans to be a pianist and singer. Good luck to you, "Ruthie."

"Music hath charms to soothe the savage breast"

JAMES EDWARD CROFTON

"Jimmy"

Stop! Look! and Listen! "Jimmy," the boy athlete, who starred on the football team and showed remarkable ability at the track meet held in Fairhaven. "Jimmy," though small in stature, frightened many of his opponents while playing football, and credit has been given to him for having won one game alone. While James was in his senior year, he decided that he would enter the Winthrop Institute in the fall to study electrical engineering.

Durfee wishes you the best of success, Jimmy, old boy.

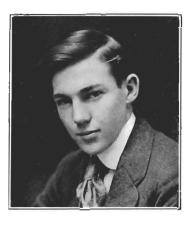

EDITH HELEX CROOK

"Ede"

Edith, a graduate of the George B. Stone School, is one of the prettiest girls in our class. We know dancing is her hobby,—she is one of that famous team, Crook and Davis, whose terpsichorean abilities rival those of the Dolly sisters—and there is never a drill that you don't see livened by the presence of "Ede" and her side partner, "Dot." Pratt's Institute of Brooklyn will claim Edith next year, where she will take up dietetics. We wish you luck, Edith, in your future vocation.

"Dancing is her specialty"

GEORGE LINCOLN CROOK

"Mayor of Swansca"

George came to Tech from the Stevens School, Swansea. While in Tech. George was very popular with both Tech boys and girls. He took part in a few debates of the Rostrum, where he demonstrated his ability to stand up for his rights. In the fall of 1918 he was transferred with the other Tech seniors to Durfee. His hobbies are swimming, hunting and "tinkering" with the wireless. George expects to attend Worcester Tech next fall, where he will study to become an electrical engineer of which the Town of Swansea may well be proud.

"Perseverance wins"

THOMAS PATRICK DAILEY

"Tim" "T. D."

"Tim" not only has attended many local schools, but has the distinction of having graduated from Loyola College, Montreal, P. Q. After attending Tech for three years he was transferred to Durfee. Wherever you happen to see "T. D." you will also see the latest copy of some scientific magazine. He is especially interested in electricity and motion picture projection, and intends to go to the Milwaukee School of Engineering next fall to study electrical engineering.

"Labor conquers everything"

GEORGE DALEY

Here he is, the boy who made Assonet famous! He is a graduate of the Borden School and has made a splendid record in high school. His hobbies are dancing, swimming and canoeing. Who can imagine a drill without George's smiling countenance and dancing ability? He is the proud exhibitor of two medals which were presented to him for being the victor in swimming meets. This young man plans to honor M. I. T. next year with his presence.

"On with the dance"

RUTH DALLAGHER

Ruth entered Durfee's wide portals one sunny September morning four years ago. Her happy disposition has attracted a large number of friends to her. Canoeing and walking are Ruth's favorite pastimes. As Ruth is terribly undecided about the future, she will toss up to see whether stenography or mrsing will be her future vocation.

"Great life if you don't weaken"

ANDREW HAMBLY DAVIS

"Andn"

Andrew is one of those who left the halls of old Durfee to enter the business world and encounter its vicissitudes at an early age. Coming from the Highland Grammar School, Andrew spent only two years at Durfee, but he always came to our drills and dances to keep alive old friendships. After having studied cotton in all its phases, at the Durfee Textile School, he accepted a position with a brokerage firm, where he now teaches his employers how to run the business. Although one may occasionally catch sight of him on some business errand, his smiling countenance, now familiar to "brokers' row," is much missed up here at Durfee.

"A man among men"

DOROTHY MASON DAVIS

"Dot"

Click! click! click! That's "Dot," but is it typewriter or knitting needles? They and "Ede" are her constant companions. Four years ago "Dottie" came with the Westall freshies, and since then has been the life of the Clericals and the fun of her class. Her specialties are dancing, writing notes, and smiling. This fall we shall find her in checks and cap at Truesdale's Hospital. We don't need to wish you success there, "Dot," for it will surely come without the asking.

"Laugh, and let laugh"

IRENE LOUISE DAVIS

Irene comes from Assonet, but we'll forgive her for that, as we know nothing else against her except her extreme fondness for the movies in the P. M. Studies never bother Irene, and we have reasons to believe that all her afternoons and evenings aren't spent in the companionship of her books. When we all learn that Irene is to become a nurse, the popular cry will be "I don't want to get well!" Noted for her "bonerimmers" and her giggle.

"Our Irene is the village queen."

EDNA URSULA DELEHANTY

"Eddie" "Ed"

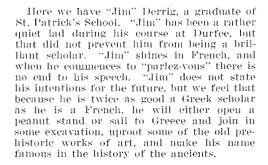

"Ed," who came to Durfee from the Davis School, is one of our girls always happy and never worrying about the seriousness of life, thus gaining a host of friends with whom she is a favorite. Although "Ed" would much rather spend an evening at a drill, where she is always noticed with her clever dancing, she is the delight of all her teachers, for she can always be counted upon to answer a question when others fail. Good nature is one of "Ed's" characteristics, which is always shown in her willingness to help others. Although we shall miss "Ed" next year, we know nothing but success can await her at Wellesley,

"Nothing is impossible to a willing heart"

JAMES DERRIG

"Jim"

"Good nature is one of the richest fruits of pleasantness"

GLADYS ELIZABETH DOE

"Glad"

In on the New York boat, one bright morning came "Glad." She then hurried up to the Westall Grammar School and thence to Tech. This winsome young lady is something of an artist, and in her third year made an attractive cover for the Tech Quarterly (that is the one we saved). Now Gladys intends to dance through the summer and perhaps Sargent's in Boston in the fall. Most likely Mrs, Indlekofer will have an assistant!

"Romances are not in life—they are in books,"

OLIVE LILLIAN DREGHORN
"Ollie" "Dreggie"

Be quiet, bend lower, while I whisper-this is Olive. No delicious morsel of fictitious composition could better picture a heroine of rare accomplishments than this demure maid of eighteen. For the rudiments of genius that McDonough School instilled in her have developed surprisingly by her training at Durfee. In the near future "Ollie" will make her debut and then her sweet voice will ring from ocean to ocean, while Alma Gluck together with her retinue will vanish. The graduation program will testify to the quality of her scholarship, and in a few years someone else will do as much for her domestic achievements. In view of this home-making tendency and sweet sympathetic nature, there is no doubt as to her unqualified success as a nurse.

"Devotion borrows Music's tone, And Music took Devotion's wing; And, like the bird that hails the sun, They soar to heaven, and soaring, sing,"

GEORGE FRANCIS DRISCOLL

George graduated from the N. B. Borden School and then came to Durfee, where he has established an enviable record. There can't be any monotony when he is around, for George has a line of talk that makes you sit up and take notice. As vice president of the Forum, he showed what he could do. He was so lively and full of tact that the members all wanted another meeting the next night. George was a valuable addition to the Record Book Staff. Next year he intends to go to Columbia, where he is to prepare for a course in law. We wish you luck, old pal.

"Persuasion lips his longue whene'er he speaks"

WILLIAM HENRY DRISCOLL

"Bill"

With the reputation of being a pleasant and quiet lad, "Bil" came to us from the Susan H. Wixon School. He is one of those good natured persons who take things as they come, and everything seems to come in his direction. "Bill's" tranquility does not prevent his being averse to a bit of excitement or a joke now and then. He has developed a particular interest in history and mathematics. "Bill" claims baseball and dancing as his pet hobbies, and he certainly can glide gracefully o'er the floor. As a member of the Forum he took especial interest, and had there been a few others of his spirit, the society would have been more prosperous than ever. "Bill" has not yet framed his plans for next year, but he will undoubtedly distinguish himself in whatever he undertakes.

"Blest with health and peace and sweet content"

ROBERT DUBE

"Bobbie" came to us from the Fowler Grammar School four years ago. During his course here he has shown himself to be a worthy scholar, and for his real live school spirit is known everywhere. "Bobbie" says that he has no hobbies, but he's "some boy" when it comes to puzzling some pretty big problems in Math. After completing his course he expects to study law at Harvard. Studying the same in college as in good old B. M. C. D., we know that you will be successful; Good luck, "Bobbie."

"Labor conquers all things"

SAMUEL DUBITSKY

"Sam" "Sammy" "Duby"

"Sam" came from the McDonough School, sufficiently loaded with "pep" to make things hum at Durfee. He always managed to make friends—and better still, he kept them. One might think that "Sam's" uncle had left him a fortune, for he is always merry and jovial. Solid Geometry holds no fears for "Sammy," and his marks will corroborate the fact. Basketball is one of his favorite games, as well as baseball. He also takes great delight in dancing. (Oh, you dance shark.) With his strong personality, good sportsmanship, and persevering ways, "Sam" can not help making a success at M. 1. T., where he is going to study civil engineering.

"One can not help but like him, In his peaceful, joyful way."

DOROTHY COOGAN DWYER

"Dot" "Dotty"

"Dot" needs no introduction to most of us. She is one of our most attractive and best liked girls, and because of her happy smile and charming personality, she has acquired scores of friends and admirers. After graduating from the William S. Greene School, she favored Durfee with her presence, enlisting with the Normal veterans of 1915. "Dot" claims dancing as her pet hobby, but we are all wondering with whom?—as she surely excels in this delightful pastime. Bridgewater stands in the distance with outstretched arms welcoming her to residence there during her preparation for a teacher's course.

"The rose is succeter in the bud than in full bloom"

BEATRICE ESTES

"Bee"

"B" came to Tech from the Highland Grammar School with a desire to make friends and to acquire knowledge. Her many friends and her row of A's prove that she attained both. Yet "B" doesn't spend all her time with her studies. She is an ardent lover of the great out-of-doors and of all the sports, swimming and tennis being her favorites. Though she has taken no active part in class affairs, she is always ready for a good time and attends most of the drills. "Bee" hasn't decided yet what her future vocation shall be, though she asserts she would like to just buzz around and be happy.

JOSEPH THOMAS FERRIS

Joseph will well represent Durfee at Holy Cross next year. An all-around good fellow, he has earned the friendship and respect of many friends during his four year sojourn among us. A member of the Forum, he can argue with anyone on anything or everything, and has entertained us many a lunch period with his views. He will have no trouble making a name for himself when he becomes a Doctor of Medicine.

"The mind's the measure of the man"

GRACE MABEL FIELDEN

After Grace had graduated from the Gardner School in Swansea in 1915, she did not hesitate to join our illustrious class, where she has been a member of the Normal division. Grace could certainly be included in the group of the jolliest girls, for she always seems bright and cheerful. "Dancing, skating and swimming are my favorite pastimes," says Grace, and we have come to the conclusion that she is right about it. Next fall will see Grace traveling to Fitchburg Normal; her chief ambition will be to become a teacher.

"I have rather studied books than men"

F. GERTRUDE FLANNIGAN

After Gertrude got her diploma at the Highland School she entered the spacious halls of Durfee in 1915. Because of her sunny disposition she has won a large number of friends. Among her favorite hobbies are reading and "penmanship with Miss Lemay." Next year she will attend a business college to become a stenographer.

"Reading maketh a full woman"

HELEN TERESA FLETCHER

Shy, modest, alluring—these are the chief characteristics of Helen. After graduating from St. Patrick's Parochial School she quietly entered Durfee to continue her studies. Helen delights in good music, and small wonder, when she herself is such a capable musical artist. Helen is especially fond of children, and this is the main reason why she will enter Bridgewater in the fall.

"Every duty we omit obscures some truth we should have known"

MARGARET TERESA FLYNN

"Rita"

Here's one of the nicest girls we know. "Rita" was from the Davenport Grammar and sure was a stunning light in the War Emergency Course. Her pet hobby is reading and attending the theater. Nothing got our "goat" any more than the day she announced she was leaving us! But the saying, "Out of sight, out of mind," does not apply to us, so we'll have her with us just the same.

"To live long is almost everyone's wish, but to live well, the ambition of few."

GEORGE FOLEY

George, after graduating from the Highland Grammar School, wisely decided to enter Durfee. During his high school course he "jumped' from the short to the long pants "stage," and with this change came the change from boyhood to manhood; for, when our country called for volunteers for the Farmers' Working Reserve, was not our George one of the first to go and one of the last to return? George's sunny disposition makes him a popular member of the class and prophesies well for his future.

We certainly enjoyed your companionship, George, and wish you every success.

"Power dwells with cheerfulness"

JENNIE RITA FOLEY

"Jen"

"Jenn" is wondering so soon, who will be at that first reunion dance, and we are sure she will be there, more attractive than ever. We received this young lady of the dancing feet from the William S. Greene Grammar School to Durfee, where she was indeed a welcome addition. Now "Jen" intends to forsake the "smooth floor" for an office, as a result of the War Emergency Course. We all hope, "Jen," that no one puts a rough board in your floor of life.

"A hall, a hall, give room! And foot it, girls; come, musicians, play."

RAYMOND CARTER GALLAGHER

"Ray" "Nick"

What is all the commotion around the lunch room? Well, if isn't young Gallagher cracking some of his stale jokes. "Ray" came to us four years ago from the Susan H. Wixon School. During his time with us he has made many acquaintances. Always in the midst of all disturbances, in the thick of chalk and eraser battles, "Nick" has developed the features of his ancestor, "Nick Carter," the old detective story hero of bygone days. "Ray" has achieved fame many times because of his remærkable ability to speak at Forum meetings. He intends to enter Brown next year, with the hope of being a lawyer. May success and good fortune be yours, our friend.

"How far this little candle throws its beams'

GRACE GENEVIEVE GAVIGAN

"Gracie"

Harken, O ye readers, unto the account of our most beloved classmate. Honored and admired by all not only for her brilliancy, especially in Latin and English, but for her sweet, sympathetic nature, "Gracie" is the most popular girl in the Normal course. Now, although "Gracie" is literary to her fingertips, she will not have reached the zenith of her fame until she, as a member of the U. S. Supreme Court, has, in her debates for woman suffrage, overcome the arguments of the opposite sex. We shall be sorry to lose you next fall, "Gracie," but we know that your achievements will fulfil our greatest expectations.

"My mind to me a kingdom is"

JOHN JOSEPH GEARY, JR.

"Blondy" "Patrick Henry II"

No arguments; John has the floor. Oh, yes, John is some debater, and his name is surely going to live in the sweet memories of those who heard him send New Bedford down to defeat. It is very seldom that we find a fisherman and a debater, but this case is an exception; John also likes to hunt. It is said that Holy Cross and Georgetown University are his ambitions. "Blondy" deserves a great deal of credit for his work in the Fornm and also for his ability in the hockey line. Yes, he's a jolly good fellow.

"I dare do all that may become a man, Who dares do more is none."

GEORGE HENRY GENDRON

Attention! Let us introduce to you that old reliable, George Henry Gendron, From the time that Adam ate the forbidden apple. a better fellow was never created. Always smiling, always joyful, always there with the glad and helping hand, George is a hard plugger and he surely will make a smashing success in the profession of dentistry, which he intends to follow. The Davis School certainly sent Durfee a fine young man. Next year it will be all aboard for "Tufts' ship." Eh, George? Well, you surely have our best wishes for a bright and happy future (sounds like a telegram, eh, George?) There aren't many things our hero can't do, and he likes the movies too.

"While there is life, there's hope"

HELEN CARMEN GIFFORD

"Giffy"

We were indeed wealthy when the Wiley Grammar School let us have "Giffy" for four years. She has a hard time deciding between a good look and a good dance (we'll admit we all do). Helen took three years of Tech A and now finishes high up in the War Emergency Course—she isn't sure whether she will be a stenographer or a teacher. Best wishes for her in her decision.

"True friends are great riches"

FANNY GOLDBERG

"Fan"

"Fann' is a breezy, good-natured person, liked by all her class, "Fan," born in Russia, found that Fall River was on the map, rushed here when she was quite young, and has been rushing ever since. As a commercial worker she has not many rivals, on account of her ability to please. She is an out-of-door fan, and motoring, swimning and dancing appeal to her very strongly. Whatever she does in the future, we have every reason to believe that she will be successful.

"Have a smile for everyone you meet"

MYER AARON GOLDBERG
"Goldu" "Shortu"

Myer came from the N. B. Borden School and immediately started to make a record. He played with the football team occasionally, and especially was he known for his willingness to do team work. As a basketball player Myer was both a comedian and a center. Who can forget the game when Durfee played its teachers? Who can forget how Myer and Arthur McGrath, our former English teacher, rushed each other around the floor? In the Forum his activities were rewarded by his being elected vice-president the first year. He was alternate on the senior debating team and captain of the team which made New Bedford bite the dust. Myer was chosen advertising manager of the Record Book, and he sure did make a success. And last but not least he was a member of the Orchestral Club. Next year he is going to Brown to prepare for a course in law at B. U.

"Some are born great, some achieve greatness, and others have greatness thrust upon them"

SUSAN JANET GOLDTHWAITE

"Sue"

"Sue" just managed to catch the train from Pittsfield and get into Durfee, for she knew what a good place it was (our fame has been noised abroad!). This maiden's hobby is "keeping up to Mildred," which is some job! Otherwise she is rather fond of dancing and tennis. Now she must hurry to catch the train for Miss Wheelock's in Boston—the children will like her.

ANNA GOMES

## "Gomesy"

Sincerity, seriousness and earnestness are her disposition. She has made an enviable record receiving A's and B's with little difficulty. Although Anna is one of the quietest girls in our class and is seldom seen at our frivolous social gatherings, she is very popular among her classmates. Next fall Anna will probably enter the Rhode Island Hospital to train to be a nurse.

## LOUIS THOMAS GORMLEY

Louis graduated from the Susan II. Wixon Grammar School in 1915, and immediately came to Durfee. He managed to acquit himself very creditably, showing a decided preference for mathematics and the modern languages. During his four years in Durfee, he was one of the most cheerful members of the class. His sunny disposition and ready wit made him very popular with all who knew him. After receiving his diploma, he expects to continue his studies at Holy Cross, where, we feel confident, he will continue his good work.

ERNEST HALE

"Ernsl" "Pluggey"

Ernest is another Westall graduate, who journeyed from Tech to Durfee at the beginning of his senior year. His hobby is the water, where he spends his summers and holidays. He has spent many a day plying up and down the Taunton River on a tug, and he hopes to find his life's work on the water. Who knows but what years from now Ernest will be piloting our New York boats to and from their destinations?

"Yee ho! me lads! yee ho!"

SUSAN FRANCES HALL

"Susie" "Sue"

Let your voices swell into a hearty acclaim, dear reader, for the curtain now rises on our dearly beloved "Sue." We are thankful to young April for bearing on its wings this dear brunette and depositing her in our midst. One bright September morning St. Mary's School received a prize package in the form of "Sue," and very zealously did they guard their prize till the time came to pass on to Durfee. Now Mary Pickford may be the most popular girl of the world in general, but "Sue" is certainly a popular girl in her own little world where we have all felt the weight of her sterling qualities. Next year this daughter of Durfee will grace the halls of Framingham, where we know success awaits her.

"I love her living,
I love her dying,
And if she had wings
I'd love her flying."

HELEN LOUISE HAMBLY

After Helen journeyed all the way from Tiverton, she sought the ancient walls of Durfee to enlist in our Normal division. Although she has not inconvenienced herself in the way of studying, yet we find her very wise in some matters. She has not yet informed us of her plans for the future, but we feel assured of her success.

"Life without laughter is a long weary blank"

JOHN CLINTON HAMMOND

"J. C."

After spending three years at Taunton High School, Clinton came to Durfee, completing his high school course there. During the short time he has been at the school, he has made a host of friends, and is known to them all as a good fellow and a diligent student. Although he is not yet certain as to his future, he is interested in marine work, and if he pursues his hobby we are sure he will make a success of himself without half trying.

"Wit and wisdom are born with a man"

JENNIE MILDRED HARDY

"Jen"

No. 99999999 from that War Emergency Course, but Jennie says that's the place for smart people who want to get ahead. Jennie is from the Highland Grammar School and is a devotee of that famous study, "movies." Between swimming and the "show" she claims to have one dandy time. Now she is on the lookout for a position in an office to make music with the typewriter.

"Be old when young, that you may be young when old."

HILDA HARGRAVES

Hilda is one of the most prominent members of the Senior class, having been on the basketball team her Sophomore year, vice-president of her class her Junior year, and an active member of the Forum her Senior year. She is an enthusiastic rooter at all the games, both those at home and at those played in New Bedford. When Hilda arrives on time for anything, you may be sure she was literally dragged there. Hilda says she intends to be a stenographer to some unsuspecting man, but just the same, we wish both him and her the best of luck. Noted for her wig, wit and gab.

"She was a mighty hunter and her prey was man."

CATHERINE THERESA HARRINGTON

"K"

Catherine, or "K"—one of those quiet, happy girls without whom the Normal course couldn't exist—came to us in 1915 after securing her diploma at the Davenport School, "K" is one of the shining lights of our class, so we shall certainly miss her when she turns her footsteps to Bridgewater next year. Catherine's favorite hobbles are skating and piano playing, in which she is very proficient.

"Quiet! Oh, so quiet!"

MILDRED HARRIS

All hail to jolly Mildred, who always has a pleasant word and a bright smile. Indeed it is impossible to catch her out of spirits. Last year she served for a time as secretary to the Forum. She did much with her ready comment and bright remarks to keep things stirring. She was always ready to do her part and was sure to do it well. Always gay and smiling, Mildred is the kind of girl who drives away dull care.

"Nothing lasts, so why worry?"

MERRILL HAWKINS

"Hawky"

Attention! Major Hawkins, commanding officer of the B. M. C. Durfee High School Cadets, has stopped jazzing loug enough to give us his worthy portrait. "Hawky" came from the Westall School, but only this year did he enter Durfee to grace us with his presence. Tech's mechanical attractions at first called him, and it took three years to induce him to change. Now in the genial realm of Durfee he passes his final high school year with the intention of taking up in the fall a course in mechanical engineering at Cornell University.

"May good fortune attend you"

ANNIE LORETTA HEALY

".1nn"

"And I had the swellest time"—will that still be a phrase with Annie Let's hope so! She is our "all around business girl" from the William S. Greene Grammar to Durfee. Anna took the Commercial but decided that the War Emergency was the place for progressive people, so now she is well qualified to pass those government civil service exams—good luck!

"Spend your life as you would your last dollar—for happiness"

WILLIAM JAMES HENNESSEY

"A born student"

After graduating from the Davis Grammar School, "Bill" immediately enrolled in the Scientific department at Durfee, and quickly became known as a mathematics "shark." His popularity becomes self explanatory when it is known that he is almost always surrounded by groups of students seeking his help in solving difficult "simultaneous equations" and in extracting "cube roots." After graduation "Bill" intends to enter M. I. T.

We feel sure that in the not too distant future the class will boast of a great engineer.

EVERETT HIGGINS

"Ev"

Everett, after completing his course at the William S. Greene School, entered Durfee for further advancement on the road of learning. Always happy through good and bad fortunes. his optimism has wrought cheer and dispensed gloom in melancholy moments. "Ev" took great interest in school athletics and succeeded in making the baseball team. He was also a member of the Forum, where he gained great fame as a result of his declamatory talent. Always a brilliant scholar, Latin and Mathematics presented no difficulty to him, and we feel sure that when Everett enters Yale next fall he will make as bright a record there as he has here. We also feel that he will find as warm a scot in the hearts of his new acquaintances as he has in ours.

"Happy as the day is long"

BESSIE HOFFMAN

"Bess"

"Bess," like all sensible persons, suddenly realizing the joys of Durfee life, packed her bag and journeyed hither from New Bedford. Though "Bess" is small, she has big ideas and loves to talk about them. Perhaps she gets these from the many books she reads, for she likes nothing better than a nice, long afternoon with her books. Next year she will continue her clerical studies at Columbia University, and win honors for herself and Durfee. Well, "Bess," here's wishing you luck and lots of it.

"So small and net so big"

GRACE LILLIAN HOLDSWORTH

"Gracie"

And still they come—just one more from the War Emergency Course brimming in the wise knowledge of shorthand and plenty of speed in typewriting with English of all kinds! "Gracie" is from the Fowler Grammar School and is frivolous enough to be fond of "movies" and dancing. She also aspires for a position in some man's office, to play a Remington.

"Everyone desires to live long but no one would be old."

MARY ELIZABETH HOLLAND

"Hap" "Chuck" "Dutchie"

"Hap," and well does that name apply, came direct to us from the Davenport School. She is one of our hest natured girls and follows the advice of "Have a smile for everyone you meet," thus gaining numerous acquaintances. Although "Hap's" interest isn't centered in spending all afternoon in study, nevertheless she has done good work during her four years here. Dancing, skating and swimming are "Hap's" most favorite pastimes, and we could not blame her for so choosing, for she certainly is proficient in all. Durfee will surely miss your jolly disposition, "Hap," when you leave us to enter a higher institution of learning in the fall.

"Laugh and the world laughs with you"

RITA PATRICIA HOPKINS

"Rite"

"Rite" came to Durfee four years ago after her graduation from St. Patrick's Parochial School. During her four years she has not gained much in height but has gained a host of friends. She tells us that she has laid aside her ambition to teach and intends to wear a nurse's uniform. Next fall she will enroll in the Nurse's Training School at Carnegie Hospital.

"Small only in stature"

JOSEPH HORVITZ

"Joe" entered Tech in the fall of 1915 after having graduated from the Samuel Watson Grammar School, and was later transferred to Durfee. Being naturally studious and of a very agreeable disposition, he readily found a high place in the esteem of his teachers and classmates. During his stay in Durfee, he displayed considerable interest in all sports, chief among them being dancing, rowing, swimming and baseball.

After graduation he intends to enter the Bristol County Law School and then follow a business career. In this the class, knowing his sound judgment and persistency, feel sure of and wish him every success.

"With charity for alt, and malice towards none"

MILTON HORVITZ

"Milt" came to Durfee in 1915, a graduate of the Lincoln Grammar School, and soon showed his teachers that he had a large thinking capacity. He is a deep thinker, as is evidenced by the interest and delight with which his talks in the English class are received. "Milt" is always ready to help a friend, and the unanimous vote of the class is that he is a "good fellow."

Here's to your future success, "Milt."

"If you have knowledge, let others light their candles bu it"

GLADYS ALBERTA HOWARD

"Glad" "Sword"

This fair haired damsel is one of those fortunate people whose lot it is to make everybody else happier by always being happy herself. That's what Gladys is, and that's what she has always been, ever since she first came here from the Borden School four years ago. With that infectious giggle of hers she has already made lots of friends, and whatever her future course in life may be, she is certain to make many more.

"Laugh and the world laughs with you"

MARY ETTA HURLEY

"Marie"

"Marie," another graduate of whom the N. B. Borden may well be proud, enrolled in our Normal French class one sunny September morning four years ago. Mary has made a rather brilliant record during her high school course. "Marie" takes great pleasure in skating, dancing and boating. Next year she will join her other classmates at Bridgewater.

"Be quiet, sweet child, and let who will be elever"

ETHEL MAY JEWELL

This "jolie mam'selle' is every bit as delightful as the spot she hails from—Little Compton. She has not been with us long, but we have had time to find out that she's the jolliest sort of fun, always ready with a happy grin. She wears it waking, sleeping, swimming and skating,—such are her favorite pastimes. A stenogarpher's life holds charms for her, and next year she will enter a business college in preparation for some such future career.

"There's sunshine in her smile"

EDITH RICHMOND JOHNSON

Hats off! Our fair friend Edith is passing by. We are certainly indebted to the Highland School for sending you to us, Edith, for you have indeed cheered us on with your sunny smile and winsome ways. Although you say your hobby is dancing, we often wonder if you enjoy the Cadet Drills as much as ever. We want to say also, Edith, that the orchestral club will miss your very welcome assistance next year. As you expect to attend Miss Wheelock's Kindergarten School next year, we suppose you will be teaching "A. B. C's" to the little ones who, we know, will be as fond of you as we are. However, we shall always remember you as one of our most attractive girls, and we wish you luck.

"Is she not passing fair?"

HAROLD MARTIN JOHNSON

Harold, although handicapped by being a student at the New Bedford High School for his first two years, entered Durfee in our Junior year and has become a loyal supporter of our teams. Swimming and pole-vaulting are sports in which he excels. Next year Harold intends to pursue a post-graduate course here, after which he will go to Renssalaer Polytechnic Institute, preparing to be an engineer in the wild and woolly West.

"Fortune favors the bold"

SARA JONES

"Bud"

Did you say "che-ild"? Not much! "Bud" surprised us from the Borden Grammar School and showed although small, she could keep up with three years of Tech College, and that requires brains! Yes, and Sara has a "T" for basketball besides being class secretary in '18. Just now she has bumps of knowledge given by the War Emergency Course. After a little rest, our Sara intends to "brighten a corner" in some office.

"Good nature cancelleth every sin— even the areat one, tardiness,"

JAMES WILLIAM KEAVY

"Jim" "Jimmy"

"Jim" came from the Westall School to Tech, where he remained for three years. His last year he spent in Durfee. Then came the "eighteen to forty-five draft," and he enlisted in the S. A. T. C., going to Holy Cross College in Worcester. When the war was over he returned to Durfee to complete his studies. Next year he intends to enter some technical college, where we hope good fortune awaits him. By profession, "Jim" is a sign-painter and window trimmer; by experience, a fancy skater; but by striving, a good student.

"All work and no play makes Jack a dull boy"

MARY ALMA KEAVY

When Alma graduated from the Westall Grammar School she decided that the place best suited for her ambition was the Normal French class. Swimming, skating and music are among Alma's favorite hobbies. Alma's bright, sunny disposition and winning smile have won her scores of friends, who wish her the best of luck when she enters Bridgewater next fall.

"Bright is her face with smiles"

ALICE KATHERINE KEEFE

"AI"

Dominican Academy certainly did Iose one of its most amiable and brightest students when "Al" left its portals. Although she has only been with us two years, she has won the friendship of many of us through her jolly and winning ways. "Al" seems to like nothing better than to give a twenty minute speech in History, and in this subject much credit is given her. "Al" is an all-round sportswoman, but is especially interested in skating and tennis and in a good "movie" featuring wallac Reid or Jack Pickford. A's and B's are no rare things to "Al," and we certainly shall lose one of our best pupils when she leaves us to enter Wellesley next year.

"Hold the fort; I'm coming"

WILLIAM JAMES KELLY
"Bill" "Jim" "Kell"

First string pitcher on the Durfee nine for two successive years, assistant advertising manager of the Recorp Book, member of the track team—oh, how many more additional honors must be summed to your credit, Bill. Surely "Kell" never dreamed of such fame while attending the Davenport School, where he had always been a quiet, peaceful lad, both with the pupils and teachers (?). Although "Bill" is not a luminous star in the heavens of intellectual development, he has, nevertheless, progressed surely and steadily through the four years of his course. "Kell" intends to prepare for a course in law at Holy Cross this fall. We all join in wishing him the best of luck, feeling that, if he renders as faithful service to the world as he has to us, he is bound to succeed.

"Skilled was he in sports and pastimes"

MARGARET GERTRUDE KENNEDY

"Peggie" - "Babe"

Behold! "Peggie." one of our most popular girls. Coming from the N. B. Borden School. we first see her as secretary of her freshman class, of the Forum and then secretary of our own senior class. Dancing and tennis seem to be "Babe's" most favorite sports, and almost any day you may see her vanquishing her opponent on the tennis court. We sometimes wonder if "Babe" doesn't neglect her Latin prose somewhat, for you may see her, when not at her other sports, speeding over the road to Swansea in the "Hup." Next year our popular friend will leave us to grace the walls of Trinity with her delightful person, studying Latin to her heart's content. The best of luck, "Babe," is our heartiest wish,

"Happy am 1; from care I'm free; Why aren't they all content like me?"

## RAYMOND ROBERTS KENYON

Ray's specialty is anything but studying; however, he will be on deck when the diplomas are given out in June. His favorite sports are football and swimming, and he excels in both. Like others in our illustrious class, he is contemplating the Massachusetts Nautical School as his next "berth."

"A little nonsense now and then is needed by the wisest men"

LORETTA KLINE

"Lottie"

'Lottie" entered high school four years ago just as "Klein" as she is today. But it isn't always the large ones that do the work, for "Lottie" is just as smart, quick-witted and clever as any of her larger classmates. She has not yet decided what she will do after graduation, but whatever it is we know she will succeed.

"So small and net so big"

MARY KORZNESKI

Mary came to us from the Newton Grammar School, Portsmouth, R. I., four years ago. Mary says she is fond of outdoor sports, but we think she can make sport of anything, —indoors or out. Mary is another member of our clerical class who is undecided as to her future. Whatever you do, Mary, we wish you success.

"Anything for a good time"

JOSEPH KOVALSKY

"Honorable judges, ladies and gentlemen: It is my privilige to uphold—" Sh-h-h-h! "Joe" Kovalsky, member of the 1919 Debating team, is again defending the negative side of the question. "Joe" came here in 1915, a very quiet student, but in the course of his high school career he has developed into a very convincing talker, which proves that orators can be made by persistent practice. After graduation "Joe" intends to study at Harvard.

"All orators are not born"

JAMES FRANCIS LAHEY

A very amiable fellow is "Jimmie." Although he is very quiet, he may be seen at all the Cadet Drills and other social functions participated in by the class. You are also likely to see "Jimmie" any warm day during the summer senson bathing at any of the local beaches, and in the water, he has no equal. "Jim" expects to continue his studying at M. I. T. next year and become an electrical engineer. We know that you will make good, Jim, and we are all behind you.

"The peaceful are the strong"

JOHN JOSEPH LALLY

"Jack" "Joe"

John is one of our quiet friends, who came to us from St. Mary's School. During the past few years "Jack" has been an exceptionally brilliant lad. In mathematics he takes much interest, as he hopes to enter M. I. T. next fall to become a civil engineer. Outside of school, "Jack" is an all around sport, and were it not for the fact that his spare time is spent in work, we think that he would be a star on either our baseball or football team. We hope that "Joe" will have the same good fortune that he has enjoyed in Durfee and that he will be as successful in the future as he has been in the past.

"Silence, like virtue, is its own reward"

ANNETTE BERTHA LEGARE

The Dominican Academy is responsible for Annette's presence among us. Annette decided that the lure of our illustrious class was too much for her to resist, so she entered our realm in the fall of 1918. Among her many accomplishments are reading, music and "making historical scrap books." She is undecided about the future, but at all events she will probably be taking care of Uncle Sam's government records.

"With modest grace and countenance,"

CLETUS ANTHONY LENAGHAN

Before us is a representative of St. Mary's Parochial School. "Fat." as he is known, enlisted in the college division in 1915. When it comes to answering some of the difficult syntax in Greek there is nobody more capable than "Fat." He is well remembered for his wonderful recital in Greek in the Forum last year. His hobbies are baseball, football and tennis. In return for all his renderings to the class we have made him assistant editor of the Record Book. Next year "Fat" intends to enter St. Charles' College at Baltimore.

"Let me have men about me that are fat"

LIONEL HUBERT LEGARE

Let us introduce to you Lieutenant Legare of the cadets, a rather silent member of our class at times, but an all-round good sport. He entered Durfee from Dominican Academy in 1915, but he was not much in evidence until this year, when he walked into class attired in his blue and gold uniform; and represented Durfee on the debating team. After leaving Durfee Lionel expects to enter Boston University Law School, and we are sure he will make a good lawyer, because of the training he received in the Forum and in our class elections. We give him a thousand good wishes for his success.

"A man is one who is faithful to his word"

RAYMOND PATRICK FRANCIS LEVELL

Before us is a product of St. Mary's Parochial School, better known by all as "Red." Immediately on his entrance to high school he was claimed by the college division. In return for all we have done for him, he has shown himself a worthy scholar in and out of school, both for his studying and real live school spirit. He is fond of all indoor sports. After graduation "Red" intends to enter Holy Cross and study for the priesthood. Knowing that you will come out successful if your accomplishments are the same as in Durfee, we wish you the best of luck.

"So small and yet so big"

BENJAMIN LEVIN

"Benny," a graduate of the Lincoln Grammar School, is a very quiet and unassuming lad; in fact, we have a suspicion that he is a little bashful, for his chief hobby seems to be saying as little as possible. However, some of our greatest men were very quiet lads, and who knows but what "Benny" may yet develop into a great talker. Anyway, he has the best wishes of the class in whatever he attempts.

"'Tis better late than never"

SIMEON CLARENCE LEYLAND

"Clare" "Ambition" "Leyland"

Clarence came to Tech and thence to Durfee from the Borden and Brownell Schools. He has made many friends at Tech and Durfee. Clarence joined the Cadets in his freshman year and is now ranked as Sergeant. He hopes to further pursue his studies after leaving Durfee and will strive to become an electrical engineer.

"Ambition is the secret of success"

MILTON LIFRAK

"Milt" "Liffy"

Milton is some husky boy, as everyone will admit, especially the opposing pitchers on the baseball team. Right here we want to say that the big league magnates have been after this fast boy for the last year, but Milton turned down the big money for Geometry. Basketball is another one of his favorite hobbies in which he shows skill, as well as in swimming, running and dancing. "Milt" is the proud owner of F. R. A. C. cups and medals. Next year our athlete intends to go to Harvard, where he will pursue his athletics and civil engineering. We feel sure that "Milt" will succeed in getting his usual A's and B's.

"Wisdom, Knowledge, Power-all combined"

DORA LUBINSKY

"Dolly"

Well, well, whom have we here? Why, Dolly, of course! How fortunate we were to have her in our midst. She is known by everyone for her good-natured, fun-loving disposition. You must know that Dolly's motto is "Laugh and grow fat." She claims that eating is her hobby, and on that, surely there is no doubt. As yet Dolly has not decided as to her future, but we wish her success in all her undertakings.

"Laugh and grow fat"

EVA RITA LUBINSKY

"Eve"

Some people's hair is naturally straight, but "Eve's" is just naturally curly—we'd say about the curliest since Adam. Everyone knows "Eve" by that ever-flowing mass of curls. We think them very attractive and we would not be at all surprised to see her on the screen some day, vying for first place with Mary Pickford as the most popular movie star. But, if by any chance, however, remote, she should not attain that position, "Eve" is prepared to become a private secretary, and we know she will make an efficient one, in any event.

"I dread the day when we must part"

ALICE KATHERINE LYNCH

"Al"

"Al" is another graduate of whom the N. B. Borden is justly proud. Since she selected the college course a knowledge of the first two letters of the alphabet is all that is necessary in reading her average card. Dancing is "Al's" favorite pastime, and it is an art in which she excels. Alice is an assistant editor of the Record Book, so many of its literary triumphs have come from her pen. Because of her winning smile and pleasant disposition she will gain a great many admirers when she graces Radcliffe's ancient halls with her presence next year.

"Fair as the day and always gay"

VINCENT EDWARD LYSAGHT

Vincent is a graduate of the N. B. Borden School. He is a good student and a lover of music. His jovial nature and pleasant appearance have made him hosts of friends. On the athletic field Vincent always cheered for his team. Worcester Tech is where our good old classmate is going to continue his studies. Some day he will be an accomplished engineer.

"Great souls by instinct to each other turn,"
Demand alliance, and in friendship burn,"

WILLIAM ALEXANDER MACOMBER
"Bill" "Mae"

"Bill" came to Durfee from the Highland Grammar School, and here he has made an enviable record for himself. Unfortunate circumstances in that Durfee had no basketball team prevented "Bill" from showing the school what he really can do in that line. Those of us who have followed the sport, however, know that he made a fine record on one of the amateur teams. "Bill" is planning to attend the International Y. M. C. A. College next year, and after there he will do Y. M. C. A. work, a task for which he is well fitted.

"From the crown of his head to the sole of his foot he is all mirth"

JOHN JOSEPH FRANCIS MADDEN
"John" "Jack"

Ha! ha! ha!—If you have ever heard it echoing through Durfee's corridors you may be well assured that some group is being entertained by "Jack" Madden, vice-president of our class, joke editor of the RECORD, and a former graduate of the Davemort School. Let us remind you, however, that "Jack" is a diligent student as well as a born humorist. In Latin, none but Cicero can cope with him; in French, well, he can "parlez-vous" tres bien; and as for Greek—why, "Jack" could be American minister to Greece with the fluency he now possesses in dealing with the old Hellenic tongue. John intends to grace the portals of Holy Cross or Harvard next fall, and we all feel that there and elsewhere he is bound to rise to an elevated position in life because of his fine personality and good humor,

"Let me rid you of your sighs"

JAMES PHILIP MALEADY

PEARL LAURA MARYOTT

Now comes our "jewel" from the Fowler Grammar School, and still another from the War Emergency Course. This "petite" little maiden is very much undecided as to what she will do when she leaves here. Pearl at present would rather dance or go to the "show," but now she is thinking of trying a position as a stenographer, if there is a dark corner where a sunbeam needs to be placed.

"Past and to come seems best; things present noose."

MARGARET A. McCARTHY

"Peg" "Peggy"

The Lincoln School is responsible for this charming classmate blessed with a very jolly nature. "Peg" says her favorite pastime is dancing, and there is seldom a dance that does not boast of her presence. She is undecided about the future, but 'tis to unqualified success we now send our accomplished young friend.

"She is all my fancy paints her"

AILEEN McGUIRE

"Mac"

From the William S. Greene Grammar School to Tech came a quiet girl named Aileen. She studies—my land, we would never attempt to tell how much, but she likes diversion too, in the form of dancing, you know. Now she informs us that the Columbia Journalistic School calls her, so with her preliminary training in the commercial course we will some day remember we went to school with that famous journalist!

"If thou love learning then thou shalt be learned"

LOUISE DOROTHY MCNERNEY

Let us say right here, dear friends, that our popular friend Louise is a delightful, charming and jovial girl. Louise declares that her favorite sports (when not engaged in studying) are tennis and dancing, and we know she has chosen wisely, for Louise certainly does attract much attention in both. As an assistant editor of the RECORD BOOK, much credit is due her for helping us make the literary part of this edition a success. Louise is a worthy product of the N. B. Borden School. Sorry to say, lack of space prevents us from enumerating all her good qualities. Although Louise is yet undecided about the future, we may feel sure that she will succeed in whatever phase of life she undertakes.

"Nothing is so difficult but that it may be found out by learning"

MARIE LEONIE MELANCON

"Ambition"

And "Ambition" is her nickname! Leonie likes to go fishing (on Sundays especially!) and also to take walks. We were handed this child from the Fowler Grammar School. Still another young lady that has put in a year of the War Emergency Course. Perhaps that's where she acquired her nickname? Anyway, Papa needs a stenographer, so although Leonie leaves our gniding hands, she will still have some one to take care of her.

"In admiring greatness we rise to the level"

RAYMOND T. MENARD

"Ray"

Raymond came to us from St. John's Prep School. Although "Ray" has only been with us one year, he knows every pretty girl in the school, and "sure is popular." His hobby is cartooning, and his presence at all the drills shows us that he does not disapprove of dancing. "Ray" is our class artist, and many of the sketches in the Record Book were made by this young man who will, in the near future, be enjoying a Havana in his easy chair in a New York newspaper office. Next year he expects to go to the Cleveland School of Applied Arts,

"He that seeketh, findeth"

CLETUS MONAHAN

"Clete"

Following the steps of many of his classmates from the Davenport School, "Clete" entered Durfee this year after three years at Tech. He is one of the quietest boys in the class, and yet he never misses any of the fun. Swimming in the summer and skating in the winter occupy the greater part of his extra time. "Clete" intends to enter the Massachusetts Nautical School next fall and study for a superior rank in the Merchant Marine.

"Men of few words are the best men"

MARY MARGARET MOONEY

Blow the bugle, sound the trumpet, enter Mary. The first chapter of Mary's history began when she opened her eyes one cold January morning in 1903. And this marvelous baby grew, prospered and the wisdom of the sages was discovered in her by her teachers at St. Mary's School. Now, although Mary has kept her brilliant record of scholarship here, yet in after years when we think of her, the image of a curly-haired, blackeyed, fantastic young Hebe will come to our mind, bringing with it a host of pleasant social recollections. "Teaching is a divine art," Mary, and this thought will be our only comfort when next year we bid you the best of Inck at Framingham.

"Here's to the lass of the class, and oh, the class of the tass"

SARAH MORTON

"Sally"

And now we will present to you "Sally" Morton, a Westall graduate. Since "Sally" arrived, she has proved to be one of Durfee's most enthusiastic supporters, having special interest in the Forum. But debating is not "Sally's" only hobby, for she is also a lover of sports—being especially proficient in tennis, swimming and riding. "Sally" will go to some preparatory school next year and wait until the following year to enter college, but no matter where she goes she will always be found thoughtful, full of fun, and clever.

"Splendidly capable, Her career awaits her."

DOROTHY MACLEAN MOULTON

"Dot" "Dottic"

Coming from Kingston, New York, "Dottie" joined us in junior year. Since then she has had time to show to all of us her untiring good nature and her love of a good time. When it comes to skating, swimming, dancing or, yes, even to movies, "Dot" is right there. "Dottie's" help on the Record Book Staff indeed deserves considerable praise. We will leave "Dottie" here next year to help and guide the undergraduates, but in the following year she expects to enter Mount Holyoke.

"'Tis well to be merry and wise,
'Tis well to be honest and true."

ROBERT VINCENT MURPHY

"Bob" "Murph"

"Bob" is a graduate of the Borden Grammar School. In the fall of 1915, he wisely decided to enter Tech, and here he remained for three years. Later "Bob" enlisted in the old 12th Company and with them saw six months' service at Fort Banks. He now attends the Military Academy at West Point, During his three years at Tech, "Bob" was a very active member of the Cadets and received the rank of Sergeant. He was awarded the first prize in the Freshman Drill of 1916 and the Talbot Medal in 1918. His hobbies are Math and Army Life, and in the latter he has chosen his future vocation.

"All work and no play makes Jack a dult boy"

BEATRICE CLETA NASH

"Bee"

"Bee," learning all there was to be offered at the N. B. Borden School, entered this famous institution of learning four years ago, establishing herself deep in the hearts of her classmates, there to remain. "Bee" says her favorite pastime is dancing, as she is frequently seen at most of our drills and social gatherings. A year from now we hope to hear of her success at Bridgewater.

"The sweetest flower is sliyest"

FANNIE NOVEK

A demure damsel who will some day make her mark in the business world, as her record in the commercial course has already indicated.

Fannie always has a smile and a friendly remark ready. She is a conscientious student and is well liked by both pupils and teachers. It is not definitely known where Fannie will go after her farewell to Durfee, but here are our good wishes for her success and happiness in life.

"One thing at a time, and that done well"

ISABEL EUNICE O'NEIL

When there's anything going on, you'll always find Isabel. She spends most of her time between jollying the boys and "calling up," and with the time that's left, she does her studying. Isabel's fondness for dancing and sports has made her one of the most popular girls in the class. Although it was an accident when Isabel appeared at football practice, at the regular games you can always count on her presence. Next year she intends to take up a course in cooking at some domestic science school. We are sure she will make a success of this. Noted for her generosity and good-nature.

"Why should I worry, or sorrow, or fret?
Trouble and I have never net met."

AUDREY ETHEL PACKER

?

She sings a bit, plays a bit, and studies all the time (?) As a Freshman Audrey made a place which was hard to fill when she left us for Girls' High, Brooklyn. Girls' High and Audrey! Of course, she came back, and made Swansea an interesting town. Her accomplishments would fill a page. In summer she is in the water, in winter on the ice, and all the year round, in her "Studie," Needlework is as easy to Audrey as Math, and when it comes to cooking—oh, my! Next year will find Audrey at Sargent's with her old desire to find a nickname.

"Pack up your troubles in your old kit bag, And smile, smile, smile."

DORIS BROWN PADELFORD

"Dot" "Daw"

When you first meet Doris she seems very shy and retiring, but after you have known her for a month you surely have to change your mind about her. She has a most deceiving appearance,—oh, so demure and innocent looking. But there is a telling twinkle in her eye, and it means just lots. It means, first, that she knows how to laugh and take a joke; and second, that she has not forgotten how to have good times—to play baseball and tag with the "kids." Her future is undecided, she says. Why not start a new sort of jolly orphans' home, "Dot"?

"A daughter of the gods, divinely tall, And most divinely fair."

WILLIAM MOORE PARTINGTON

"Bill"

A little less than four years ago "Bill" entered Durfee. He had outgrown the Highland Grammar School, and now, a like fate having overtaken him at high school, he is considering Williams College as the next stepping-block toward fame and fortune. "Bill" is president of the class, one of our best fiddlers, an earnest participant in all sports, baseball and tennis especially, and a diligent worker in his studies. In his further academic life he will surely win out, and in unknown future occupation we wish him the best of success.

"Labor overcomes all things"

EDITH GERTRUDE PIERCE

Yes, she does look sort of serious-minded, doesn't she? But just wait till you see her smile, and you will know that she is another of those happy mortals who claim Little Compton as their home town. That is where Edith learned the horsemanship she so excels in; that is where she found out what jolly good times are; and it was down there in the tiny library that she acquired her love of reading. Some day she is going to be a dignified school-marm, and a very successful one she will make, too.

"Every book we read is a round in the everlengthening ladder by which we climb to knowledge"

HAROLD JAMES PILLING

"Cap"

At-ten-shun! Here we have Captain Pilling, of our cadets. We can tell him by his smile—for did any of us ever see him without it? No, never! It would be indeed a strange "Cap" without that famous grin. Harold declares that the future will see him an electrical engineer,—we can readily see why should choose that as his profession, by his work in the machine shop. Whatever you do, Harold, may all good luck attend you.

"Squads right! squads left! and right about"

ROLAND MILLS PLACE

"Roe" "Dougie"

We now have before us a product of the Slade Grammar School, "Dougie's" genial disposition has already won for him a host of friends; and his modest demeanor has won the respect of all his classmates. "Roe" claims that he is an expert hunter, as proof of which he calls our attention to the collection of different animal skins, relics of his last journey to Eagleville (?) "Roe" is also a shark at Latin and French and it certainly is a treat to hear him translate Virgil. As a member of the Forum "Dougie" distinguished himself by his ability to argue. Next year "Dougie" intends to startle the professors at Harvard, by showing his remarkable knowledge.

"Blushing is the color of virtue"

THOMAS ERNEST PLACE

"Tom"

Thomas graduated from the Davis Grammar School and started in at Tech, but was later transferred to Durfee with the rest of the seniors. He is one of the live wires of the school, for wherever he is there is sure to be something doing. Tom is very popular with the boys and girls of the school, especially the latter. He likes skating when he has the time to spare, but generally he can be found demonstrating Franklin cars to prospective buyers. Tom is planning to enter Worcester Tech next fall to study electrical engineering.

"Care adds a nail to one's coffin, no doubt, but every grin draws one out"

JEANNETTE CECIL PLANTE

"Jeanne"

If there's one thing this rosy-cheeked demoiselle excels in especially it is sports. She skims over the ice like a bird, hope around a tennis court like a second Bjerstedt, joys in skiting, and is, withal, a mighty enjoyable sort of person to know. We found that out four years ago when she first entered our class from the Highland School. Next year we suppose she will be distinguishing herself in athletics at Wellesley.

"In truth, a young Diana"

LILLIAN MADELINE PLANTE

"Lill"

"Silence reigns supreme"

Anyway, we think so when Lillian is around, for there is never a word from her unless she is spoken to. During Lillian's junior year she kept the temperature going up on Room 14's Thrift Stamp thermometer in the sale of thrift stamps, for she bought more than anyone else in the room. This habit of thrift seems to foretell that she will make an  $\Lambda$ -1 bookkeeper after graduation. Good luck to you, Lillian.

GERTRUDE REYNOLDS POLLARD

"Tootie"

After acquiring all the knowledge afforded by the Westall School "Tootie" came to Durfee, where her attractive and jolly disposition has made her a favorife with both sexes. Gertrude is very fond of outdoor sports and enjoys tennis and swimming extremely. In supporting the football team "Tootie" certainly did her share, and cheered the boys to many a victory. Gertrude is an excellent dancer and attends all the drills, where she is always a center of attraction. As yet she has not decided where she will further her education, but wherever she goes the best wishes of the class are with her.

"The lass of the class!
And oh, the class of the lass."

ABBIE POMERET

"Bat" "Pom"

Bang! There's another tire gone! Yes, you guessed right; it's Abbie. She is often seen dashing wildly around corners causing many an ache to her "pals" in the rear, yet withal she has shown herself to be a clever mathematical genius and we shall indeed miss her when she goes away to St. Lnke's Hospital next year.

"Because she makes us smile"

MARY DOROTHY POTTER

This quiet, attractive young miss, after graduating from the Westall School, wisely entered our class at Durfee in 1915, where she surely has obtained something worth while from her four years of the college course. It is Mary's delight to be present at an exciting movie show, or perhaps she likes nothing better than to be curled up in a comfortable chair reading an interesting novel; but then we can't blame her for her choice, for most all of us take delight in both of her pastines. Next fall will see Mary a Freshman again—at Simmons, and will soon behold her a private secretary to John D. The best of luck and success, Mary.

"Let us make an honorable retreat"

PEARL FLORENCE RADOVSKY

"Pearlie"

"Pearlie," hailing from the N. B. Borden School in 1915, is a real protege of Paderewski, for she certainly does make her fingers fly over the keys at morning assemblies or when playing in the Durfee Musical Club, "Pearlie's" one ambition is to pile up  $\Lambda$ 's and we know she will succeed without any trouble. She is a lover of all out-of-door sports. Tennis and skating attract her attention somewhat but she is especially interested in swimming. "Pearlie" is a true companion for the mermaids and enjoys the water fully as well as they. Lasell will indeed be fortunate in adding Pearl's name to its list of students next year.

"It's good to be merry and wise"

FLORENCE MAY RATCLIFFE

"Flo"

"Flo" came to us from the Samuel Watson School. She is a quiet member of the class, although she is a talker during recitations. She doesn't say what her hobbies are, so we'll have to make a guess. Our first guess would be studying her lessons, for it seems she always knows them better than anyone else in the class. "Flo" expects to become a stenographer after graduating.

"Actions speak louder than words"

RUBY JOSEPHINE READ

"Rube"

One day in 1915 a big smile came to Tech, and when we smiled too, we then became acquainted with "Rube" from the William J. Wiley Grammar School. Ruby jogged along, happy-go-lucky, in the Tech A course and now she says she "will have a rest this summer." In the fall comes the grand climax—Ruby is going to the Massachusetts General Hospital to be a nurse. We'll say "Rube" will make a good one, cheer grouchy money bags' and perhaps—?

"Imitation is the sincerest flattery"

WINIFRED REED

"Winnie"

Music hath its charms; so has "Winnie." Four short years ago she slipped into Tech with a pack full of smiles and dimples to cheer up her classmates and to chase away her teachers' troubles (?) Feeling blue? Well, have a chat with "Win." Though she comes from the quiet town of Hicksville, she takes a sweet delight in whispering; so does everyone else when "Win" is around. Her favorite pastimes are reading stories, taking strolls, and writing letters. She claims that Bridgewater will be her future address—we wonder. Whichever you choose, "Winnie," carry your sunny smiles with you and success will be yours without the asking.

"The smiles that win"

BESSIE SOUTHERLAND REYNOLDS

"Bess"

This bonnie lassic came from Colorado to the Highland School, thence to Tech. In spite of the home work of the Commercial course she found time to serve on the Rostrum Executive Committee, '18, also the second basketball team of '17, on which although only a Sophomore she carned her "T." Now she leaves Durfee for a Remington in some office, and from there—(?) Secrets, child?

"'Tis smiles that make the world go 'round"

JAMES ROBERTS

The Davenport School paved the way for "Jim's" journey to Durfee. During his stay here he has shown himself a worthy scholar, and has become very popular through his artistic paintings, and wonderful debates while a member of the Forum. He is also noted for his brilliant recitations in History. In return for his labors we have made "Jim" assistant art editor. "Jim" intends to continue his studying next year at M. 1. T., and prepare himself for architectural engineering.

"Always cheerful, smiling and merry"

MARY THOMPSON ROCHA

"Thom"

Somebody left the door open in 1915 and Mary blew in. Mary or "Thom" is an accomplished sportswoman, tennis being one of her favorites. When not behind the wheel of her large touring car she is shedding some light on deep mathematical problems to those less brilliant. Our sincerest wishes follow her to Boston University, where she will specialize in Spanish.

"A merry heart maketh a cheerful countenance"

VIRGINIA FAIR ROGERS

"Gene"

The William S. Greene School sent Virginia to brighten and cheer our classrooms. This dainty little miss is one of the most popular girls of our class, both with the boys and girls. She certainly is loyal to Durfee, as she does her bit by attending all the school activities and is as much at home cheering from the side lines as she is on the dance floor. "Gene" claims dancing and tennis as her hobbies. Next year she intends to enter Simmons College, where we know she will become quite proficient in the art of cooking.

"Petite in form but big in mind, A dearer girl you'd seldom find."

FRANCES RUBENSTEIN

"Faith"

Readers, pause a moment while we introduce a new Frances, Frances without her books. After graduating from the Lincoln Grammar School, "Faith" came to Durfee with a motto, "Be prepared," and in this, as in everything, she has never failed. Her quiet demeanor and lady-like manners have won for her many friends. Her favórite pastine is translating French, yet nothing pleases her better than a long stroll on a quiet day. As yet, she is undecided where she will go next year, but, wherever you go, "Faith," we wish you the best of luck.

"To possess ability is to use it"

MILTON DAVIS SANFORD

"Milt"

"Milt" is one of our most versatile classmates. His latest stunt (thanks to Mr. Pope) is to prove that 1 equals 2. The Westall School sent this prodigy to us. "Milt" is the adjutant of the Cadet Battalion and is also the business manager of the Record. He is fond of most outdoor sports, but he especially shines in hockey and swimming. In respect to the latter—while we mean no disrespect—we might apply the name of fish to him. Next year "Milt" is going to Exeter, after which he will enter Williams.

"He's dangerous-he has a bee in his bonnet"

WARREN FAUNCE SANFORD

Among those who left Durfee last fall to continue their studies in other schools, this classmate stands forth both for his popularity and athletic ability. A member of the football squad last year at Durfee, he continued his good work at Moses Brown School. winning his "M. B." as tackle on a team which lost only one game in the season, but which did not, however, play Durfee. Nor is football the only sport in which he is proficient. Baseball, tennis, hockey and many others claim his attention when not engaged in wrestling with Math, French, Physics, etc. Although not to be a graduate of Durfee, as a former member we pledge his success in later life in the certainty that he is proud to count himself as once a fellow student in old Durfee.

"He plans well that wins"

WILLIAM RICHARD SAWYER

Bill, who never seems burdened with studying, has, nevertheless, been a good student. It is hobbies are about every known sport from baseball to swimming. Perhaps it is his love for swimming that prompts him to become a Merchant Marine officer. After a course on the Nantucket Training Ship, he will command some liner between here and Europe.

"What's the use of worrying?"

MEYER SEGAL "Speed"

Meyer has been truly nicknamed, as he has shown great speed in all his work during the past four years. Meyer came to us as a representative of the John J. McDonough School, and has upheld the standards of that school with due respect. He has been an active member of the Forum for the last two years and has shown his abilities in ontside discussions arising over different points. This young man is continually experimenting in an effort to revolutionize the world by some great chemical invention. Meyer plans to continue his studies at Worcester Polytechnic.

"Blushing is the color of virtue"

JAMES SELIGMAN
"Jim" "Sulli" "Curly"

James came from the N. B. Borden School, where he had established a reputation for himself. At Durfee he continued his good work, being a member of the basketball and football teams. As a debater he was supreme. Well do the members of the Forum remember his inspiring speeches. James has been a very good scholar at Durfee, since he has made it his business to get nothing but A's and B's. And for popularity—he couldn't be beaten. As for singing and dancing, his class is 1-A, and he sure would go hig on the stage. Jim intends to make a name for himself in Harvard also, and we feel sure he is going to succeed.

"You know I say just what I mean, And nothing more or less."

CHARLES SHAPIRO

After graduating from the John J. McDonough School, Charlie wisely decided to enter Durfee. He soon showed his teachers that he could "give an argument," as his criticisms on Shakespeare show. His popularity is easily explained, for who can resist the great big smile that always lights his face? After graduation, Charlie expects to enter Harvard and become a lawyer.

We feet sure you'll make a good one, Charlie, and wish you every success.

"One happy smile is worth a dozen groans in any market"

MARY SOPHIA SHAY

"I cannot play alone"

No, indeed she can't! Mary needs some one else to make a set for tennis (life tennis, Mary?) She also drove her car from the Highland School to Durfee, and spent four years with us. Mary now intends to go to Pratt Institute and later enter the private secretary field—good luck!

FOSTER GARDNER SHERMAN

After graduating from the Fowler School "Foss" came to Durfee to pursue the college course. During his first year he became a violinist in Mr. Titcomb's orchestra. "Foss" says that his hobbies are studying and visiting the office. We also know that he is attracted very much by the "female" sex. As a member of the Forum "Foss" has shown himself a very good debater and is well liked by his classmates. "Foss" intends to continue his studying next year at M. I. T. and become an architectural engineer.

"Where there's life there's hope"

JENNIE RAY SIMMONS

"Little Jennie"

"Little Jennie" entered Durfee with our class in 1915, and since that time she has ever been a faithful and diligent pupil. Although she has not grown very tall, she has gained considerable knowledge of things in general. She has a natural talent for music and after graduating from Durfee she intends to grace the New England Conservatory of Music with her presence.

"Music hath charms"

CHARLES SOFORENKO

Heads up, everybody! Here comes "Charlie Sof," captain of the 1919 debating team, who certainly can make his opponents travel some. Cicero had nothing on this lad. "Sof" is also a violinist in the school orchestra, where his ability cannot be doubted, for he is considered "second to none." But coming down to fine points, "Sof" as an athlete would make a wonderful mathematician. After graduation, Harvard will claim him, and she surely will have something to boast of. Well, good luck, "Sof."

MARION SUMNER STAFFORD

You people that watch Marion studying away so diligently in school don't know her at all—not the slightest bit. Did you ever know that she was the champion huckleberry picker of Bristol County, that she could can everything from a cricket to a cow, and that she could write awfully interesting stories? No, you didn't, and that is because Marion is sort of shy and does not talk much about herself. But just you visit her out on her little Westport farm, and you will find that she is the cleverest, jolliest, most companionable girl going!

"She's more lovable as simple woman Than anyone diviner that I know."

EILEEN ANGELA SULLIVAN

"Ei"

Since graduating from the Lincoln School with a goodly share of its honors, "Ei" has been one of our most sociable and delightful classmates. She is the possessor of a cheerful smile and a never failing sense of humor. She likes nothing better than to have a good game of tennis, or perhaps her hobby is dancing, for "Ei" always has a full dance order. "Ei," after graduating from grammar school, directed her footsteps towards Durfee, where she surely has made good in her short stay here. Next year will see "Ei" honoring Wellesley with her presence. The best of luck, "Ei."

"She is never less at leisure than when at leisure"

ETHEL MARY SULLIVAN

Ethel came to us from the St. Mary's School and enrolled in the clerical course. She is one of the most cheerful members of our class, and we can tell from her report card that she excels in all those business properties that help to make an ideal stenographer or private secretary. We know, Ethel, that you will succeed.

"A thing of beauty is a joy forever"

FRANCES MAE SULLIVAN

"Fran" "Sis"

"Tee hee! Tee hee! Who can this giggly damsel be, With the laughing eyes and the curly hair, And the Paris gowns that make you stare?"

'Twas the Highland School that so graciously relinquished Frances to us in the September of 1914. And we owe it our thanks, for although she isn't aurfully much of a student, she certainly has put spirit into the class with her bright and vivacious personality. Dancing and skating are her specialities, as we who patronize the drills or frequent the Daun Pond can testify. As for vocations—well, who wants to bother with such things yet awhile?

"With wanton wiles, Nods and becks and wreathèd smiles,"

GEORGE FRANCIS SULLIVAN

"Sully" is most popular with all, teachers and pupils alike, and we even suspect a close relationship with Mr. Pope. His mirthful giggle has enlivened many a French period. Next year he intends to enter Tufts Medical, where he can earn the right to add M.D. to his name. If he keeps his gaiety with him in practice, he will have no difficulty in enticing large fees from his patients. Good luck, George.

"Laugh and the world laughs with you"

HELENA MARIE SULLIVAN

"Zada"

And so, for that matter, has "Zada" (sounds like Ja-da, doesn't it?). Helena came to Durfee from the Westall School, four years ago. We don't know what we would have done without her to brighten the pages of our Record. She says her favorite sport is motoring with "Babe" Lewis,—but we've seen her dance, and she seems to enjoy that a great deal. Next year she will go to Ward-Belmont, to specialize in music and art—incidentally, she will make those Tennessee mountaineers sit up and take notice. All our best wishes go with you, "Zada."

"Music hath its charms"

JOHN HENRY SULLIVAN

"Jack"

Here we have "Jack," a rather quiet member of our class, who came to Durfee from the Highland School. For four years "Jack" has gone about silently among us, compelling attention by his very silence and quiet determination. John is quite undecided as to his future vocation, but we feel certain that he will succeed, gaining many friends, in addition to those he already has, by his modest and cheerful demeanor.

"Speak when spoken to"

KATHERINE ANGELA SULLIVAN

"K"

"Katie" entered our school after successfully passing the exams at the Davenport School. Though of a rather quiet disposition, "K" has made a great many friends among her classmates because of her spirit of helpfulness. She claims French is her favorite study, although she has nothing against Spanish. "K" has decided to attend the Carney Hospital where her charming manners will undoubtedly win her popularity.

"I don't want to get well"

LEO EMMANUEL SULLIVAN

"Sullu"

Leo, after having graduated from the Davenport School, came Durfee-wards, and joined our class. He is a rather silent fellow, but his business-like manner and calm deliberation win him the respect and admiration of everyone he meets. We feel sure that "Sully" will make good as an accountant, climbing steadily to success, and reflecting great credit upon himself, his teachers, and the old school on the hill.

"Silent, but wise"

MARY GERTRUDE SULLIVAN

Although this active and jolly little maid coming from the Dominican Academy has been with us only two years, we consider her as one of our best classmates. For a recitation in English call on Mary, for in this subject she has extraordinary ability, although she could well help you solve your problems in any other subject. Mary is a great promoter of tennis and swimming, and in the latter especially; for, if reports are true (and we all think they are in this case) we place Mary in line for a second Amette Kellerman. We shall all be proud to have Mary represent our school at Simmons next year.

MILTON EVERETT SUNDERLAND

"Milt"

If you want anything done, ask 'Milt.' As editor-in-chief of the Record Book, and manager of all athletics, he is very busy; but he can always find time to do something else. You will see this proven by the artistic designs upon his notebooks, and by the little "M. S." under some of the clever sketches in this volume. M. I. T. will next open her doors to him, and will assist him in preparing for his life work, architecture, a vocation for which he already shows ability, and in which he will doubtless achieve the highest honors.

"All are architects of fate"

ALICE SWEET

"At"

Sweet by name and sweet by nature is Alice. "Al" comes every morning on that tardy green car from Rehoboth, which perhaps accounts for her being the quiet miss of the class. When you want a ready listener or a willing worker, ask Alice. Riding, she claims, is her favorite hobby, but she spends much of her time digging out plots and digging them up, too, for she never tires of working in her garden. After a summer course at Hyannis, "Al" intends to enlist in the teaching corps, where she will be forced to drop the spade and pick up the ruler.

"S.lence hath its own reward"

HELEN BARTLETT TABER

"Pinky"

"Pinky" came to Tech from the Acoaxet School in Westport—one might know such cheeks weren't "city bred." Helen would rather dance or cook than anything else. A little bird whispered that "Pinky" is waiting for her ship to come in—she likes housekeeping, you know.

"Discretion of speech is more than eloquence"

EMILY ELIZABETH TAYLOR

"Beth"

Elizabeth, better known as "Beth," graduated from the William S. Greene School four years ago to enter our Normal French Division. "Beth's" favorite hobbies are reading, dancing and automobiling. "Beth's" happy disposition has helped her a great deal in winning the esteem of all her fellow classmates. As the call of Bridgewater is too much for her to resist, she too will enroll there next fall.

"Those about her From her shall read the perfect ways of honor,"

PHYLLIS ELOISE TAYLOR

"Phul"

Twelve years ago "Phyl's" mother took her by the hand and carefully guided her footsteps down to the Osborn School, where she received the rudiments of her education. Now we find her graduating from Durfee, after completing her course very satisfactorily in the Normal Division. "Phyl" has gone through Durfee disturbing no one and ever soothing others by her presence. Her favorite recreations are dancing and music, "Phyl's" ambition is to become a school teacher, for which she has every necessary qualification. Bridgewater will be fortunate indeed in possessing this valuable student from Fall River.

"Few things are impossible to diligence and skitt"

BESSIE JEANNETTE TIBBITTS

"Bet"

"Bet" is another member of our class who plans to take up nursing after she graduates. And that's just the very best thing for her, for she is an expert at taking care of children, a very conscientious student, and always so pleasant and obliging to everybody. She entered our class from the Highland School in 1914 and, although she is very quiet and unobtrusive, she has been making firm friends ever since. With all good wishes for your success, "Bet!"

"All her wans are modesty"

SAXBY MERLE TILLSON
"Sax" "Tilly"

If this future engineer is going to be as clever at construction as he is now at going through New Bedford's line, some day we'll give him a job at Durfee putting shelves outside the windows to place freshmen on. Or perhaps he'll suggest stringing them up on wires to relieve congestion and prevent our tripping over them. "Sax," after graduating from the Westall School, strolled up to Durfee, where he now teaches his beloved teachers solid geometry. In his second year he made the football team, and since then has been engaged in every form of sport, winning the title of best athlete of the senior class. And how he can dance! In fact, he is good at everything, except perhaps deciding which school will have the honor of his enrollment next year. But wherever he goes we may be assured of his popularity and success.

"He'll let no grass grow at his heels"

HELEN COOK TITCOMB

"Hetchy"

Westall sent us Helen, a quiet, loyal, studious girl with an unusual musical ability. During her four years here "Hetchy" has been by far the most faithful member of the Durfee Club, playing the bass viol. Helen's plans are not yet made, but whatever she does or wherever she goes, we are sure she will always succeed.

"With modest grace, and countenance demure"

BELMIRA TARARES

The Borden School indeed presented us with a bright, vigorous person when it sent Belmira to our school. She is one of the "A" pupils and can always be depended upon to answer a question when others fail. Belmira admits that piano-playing is her favorite pastime, and it has been said that she certainly can "tickle the ivories." Belmira intends to continue her studies at Bridgewater Normal and in a few years you may expect to see her one of our most efficient teachers.

"Perseverance is the keymote to success"

MARTHA FRANCES VAN BLARCOM

"Dimples"

"Dimples" makes another from the Highland Grammar School to Durfee. "Frau" first took the normal, evidently intending to be a schoolma'am, but that was before the War Emergency was in existence. Now after she finishes crocheting a little more and writes a few more letters (she supports the Post Office, we think) "Fran" intends to be a private secretary, but not in Fall River, we hear—is it Washington, "Fran"?

"'Tis distance lends enchantment to the view"

AILEEN ELIZABETH VINCENT

"Vinny"

Here we have "Vinny"—we can tell her because of that cheerful smile. "Smile and be happy" is Aileen's motto. She came to us from the Westall School, like many of her other classmates, but we fail to find any of them as cheerful as Aileen. She intends to be a private secretary after graduating, and all we can say is: Lucky the man who secures her services. We wish you luck, "Vinny."

"Always cheerful, smiling, and merry"

ALICE LEONORA WALSDEN

"A1"

Behind that pile of books is a wee girl, and it isn't a bit of camouflage, for she really studies! Don't mistake her for a grind—no, never! She came from the Highland Grammar School, there smartness is natural! Alice, with mischief in her eyes, declares she will use her War Emergency wisdom on some poor unsuspecting business man, and he will be in luck, for she has plenty of it!

"I never knew so young a lady with so old a head"

LENA WALMSLEY

Modest, unassuming Lena has won her laurels through school in a quiet, inconspicuous way. She entered Durfee in 1915 after receiving her diploma at the George B. Stone School. While in our famous Normal Class she has made a very good record for herself. She finds much enjoyment in reading and crocheting. Next year she will enter Bridgewater Normal to prepare for tutoring the generations to come.

"Silence is deep that nourishes wisdom"

MARION FRANCES WARD

"Wardie"

'Wardie" thinks because she has had one year of the War Emergency that she may realize her ambition; which is to be private secretary for the President. Otherwise Marion is a normal girl, from the Fowler Granmar School, with a liking for "movies" and dancing. Always the first to see and tell a joke—ever hear that funny laugh? You'll laugh, too! But who can tell but what she may reach her aspiration? Until then may she have the next best!

"A great career is the dream of youth realized in mature age"

MARGARET WARDLE

Who have we here? Our friend Margaret, who hailed from Westall four years ago with a splendid record. Margaret is full of enthusiasm and is a valuable member of the class. She is accomplished in so many things, it is certainly hard to say which talent she ought to use for her life work.

Margaret will no doubt grace some one of the larger girls' colleges next year, and we send her forth with the best wishes of B. M. C. D.

"Not simply good, but good for something"

INEZ MAY WAREHAM

First her nose begins a-wrinkling, and her eyes begin a-twinkling; then out flash two rows of shining white teeth,—and you have Inez smiling. That grin of hers is warranted to chase away the very bluest blues anybody could ever get into. She'll make the best kind of a nurse,—this "Lady of the Smile."

"Graceful and useful all she does, Blessing and blessed where'er she goes."

ELLIS ANDREWS WARING

"EII"

For two years now, "Ell" has been numbered among the missing of the class of '19. for at the beginning of the third year he entered Moses Brown School, where he will stay one more year before entering college. After graduating from the Westall School, "Ell" took up his pursuit of knowledge at Durfee, where his friendly smile and genial personality are now greatly missed by both teachers and scholars. While "Ell" did not distinguish himself in athletics here at Durfee, he is, nevertheless, very proficient in many sports, especially in swimming and tennis, while trying to make his motorboat run on both cylinders is perhaps his favorite pastime.

"There was an ancient mariner"

MARGARET MARY WELLS

"Peq"

"Well, honestly, I have—" "Peg" came from the N. B. Borden Grammar School to Tech—then and there we heard our grand-mother's favorite hymn jazzed on the piano. No one has a hobby that they can handle so well as she can hers. But Margaret likes dancing, too—she says after one year of the War Emergency she will transfer her affections to the typewriter—here's hoping you go up the ladder of life as easily as you do the scale, "Peg."

GEORGE HENRY WESTCOTT

"Jud" "George"

"Jud" graduated in 1915 from the Davenport School, but it was only after having spent a year or two at East Greenwich Academy that he was convinced that Durfee was the place for him. "Jud's" middle name should be Marconi, for when it comes to wireless telegraphy he's a wizard. When he leaves us he's going to Tufts Dental School, after which he will grind—(people's teeth)—for the rest of his life.

"The world knows nothing of its greatest men"

GERTRUDE MARY WHALEN

"Gerl"

"Gert" says her hobby is laughing—how well we know it. Her laughter is contagious, and soon after she had entered Durfee from the Borden School four years ago, she had us all laughing with her. Now she is leaving Durfee to repeat the experiment at Bridgewater Normal School. If you should happen to pass by a little country schoolhouse, two or three years from now, and see laughing "Gert" in the midst of a crowd of happy school children, you will know that her ambition has been realized. Good luck to you, "Gert."

"Lanah and the world laughs with you"

HAROLD HOWARD WHALON

"Whalon"

Harold came to Tech from the Slade School. He joined the Tech College Course, undecided as to what occupation he would study for. At Tech, he gained many friends, as he did later when transferred to Durfee in his fourth year. His favorite question is, "Is this seat taken?" and his hobbies are going to the theater with his "cousin," autoing and all kinds of outdoor sports. Harold is undecided what course to take when he leaves Durfee, but is thinking of pursuing studies in electricity.

"There are smiles that make us happy"

KATHRYN VERONICA WHALEN

"K" "Kathie"

We are indebted to the Lincoln School for this happy little classmate. During her stay at our stately institution of learning she has won many friends. Skating and dancing are "K's" favorite hobbies. Next year we hope to see her pilot her canoe into Bridgewater, where she will enter the ranks for a schoolma'aun.

"Good things come in tittle packages"

DORIS ESTELLE WHITEHEAD

"Pete" "Dot" "Dottie"

"Pete" is a fair damsel who hailed from Providence and took the plunge into senior affairs last year, and has been swimming bravely ever since. She attended Frank S. Stevens, Peace Street Grammar and Classical High Schools before entering Durfee. She is fond of outdoor sports, but like so many others, has been spending her spare time knitting for our soldiers.

"Dot" has chosen teaching as her vocation, and who knows but that some day she may come back and teach in dear old B. M. C. D.

"Kind hearts are more than coronets, And simple faith than Norman blood"

FLORENCE MYRTLE WILLIAMS

"Flo"

"Flo" has a great desire to be a bookkeeper after graduating, and what office wouldn't gladly welcome her, with her sunny smile and cheerful disposition? She surely has been a ray of sunshine in Durfee's dark lower corridor this year, and we know she will do creditably any task that she may undertake in later life. Good luck, "Flo," and when the class shall assemble as alumni during future years, may your smile cheer us then as it has during the past four years!

"Of her bright face, one glance Will trace a picture on the brain,"

THEODORA MARE WILBUR

"Teddie"

And "Teddie" more so than others, so we have learned. She also came from the William S. Greene to Durfee, and confesses that she adores horseback riding. But what is better still, she is very fond of music and singing. Sh—don't tell this, although Theo has taken a year of the War Emergency, in which she was far from dull, she intends to go to the American Academy of Dramatic Arts, and Durfee 1919 will have a celebrity some day.

"All women are ambitious naturally"

ALLEN LEWIS WILCOX

"Al"

While "Al" at times goes under the nickname of "Fat," woe to the one who believes this husky fellow is soft. In football many a man has been bowled off his feet by the determined onslaught of "Al's" two hundred pounds of bone and muscle, and in many a game Durfee has been helped to victory by his ability to make a huge gap in the opposing line. At baseball and football he also shows up to advantage. Last fall, however, "Al," being too young to enlist as a fighter, responded to his country's call for workers, and has since been employed in the shipyards. While he will not graduate with the class, he may feel proud of having done his bit toward ending the Great War.

"Many a little makes a mickle"

NATHAN WINOGRAD

"Nath"

Nathan received his honorable discharge from the William S. Greene School, and then joined the student army at Durfee. One may see that "Nath" is a smart lad, by casting a glance at the neat little rows of A's and B's that appear quarterly on his card. Although not much of a sport, he takes great interest in baseball and is always numbered among the fans at Alumni Field. Nathan first broke into prominence when he carried off first prize at the Forum's annual declamation contest. He intends to enter Harvard this fall and make preparations to be a lawyer. May success be yours and may you find life's long road an easy one.

MAUDE ELLA WISHART

"Maudie" "Spud"

Ha! euter Maudie, brilliant and attractive, and what's more, associate editor of this remarkable masterplece of literature. "Spud" has wisdom galore; she is from the William J. Wiley Grammar to Tech. Maude was a prominent star in Forum, being the secretary of that "squabbling society" before it passed "out"! After she spends the summer swimming and otherwise enjoying herself, she intends to go to Brown and train to be a "sobsister" (reporter!) so we shall hear more of "Hee-haw"!

"What is worth doing, is worth doing well"

GEORGE W. WOOD
"Woodie" (would he?)

George graduated from the Slade School, and began his successful high school career at Tech, but was transferred during his senior year to Durfee. He expects to take an apprenticeship course in the General Electric Company of Lynn, where we are sure he will make good.

"Where there is a will there is a way"

LEROY WOOD

"Farmer" - "Woodie"

"Woodie" has the distinction of being the youngest boy in the class. The Highland Grammar School started him on his way to gain an education, but he deserted it when he was in the seventh grade and entered the Bridgeport School in Tiverton. Evidently he didn't lose any of his brains in changing, for he has ploughed through his studies here like a tank, capturing and holding the first line trenches of the allies—(algebra, English and history). The sports "Woodie" likes best are laseball, swimming, or skating, according to the season. Next year he will take a postgraduate course at Durfee.

"Silence is the sleep that nourishes wisdom"

JESSIE ANTHONY WARDELL

"Jess"

We are certainly glad that Assonet is nearer to Fall River than to Taunton, for if it hadn't been, "Jess" would have gone there to high school instead of here. Who is there among us that doesn't know "Jess" and like her? Jessie is very fond of domestic science and sewing (we wonder why?) She is undecided what she will do on leaving this dome of knowledge, but we know she will make a success.

"Above our life we love a steadfast friend"

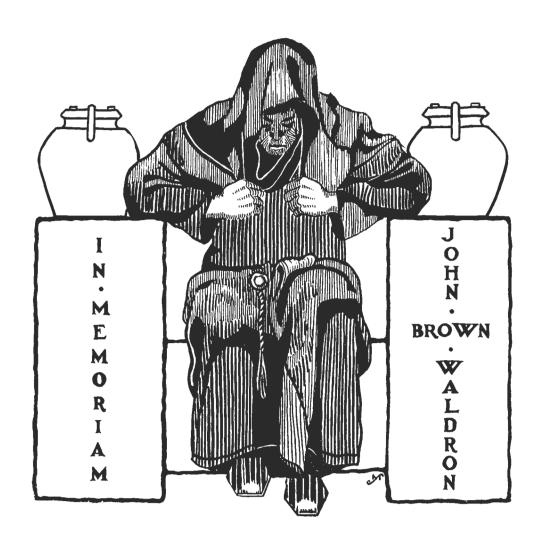

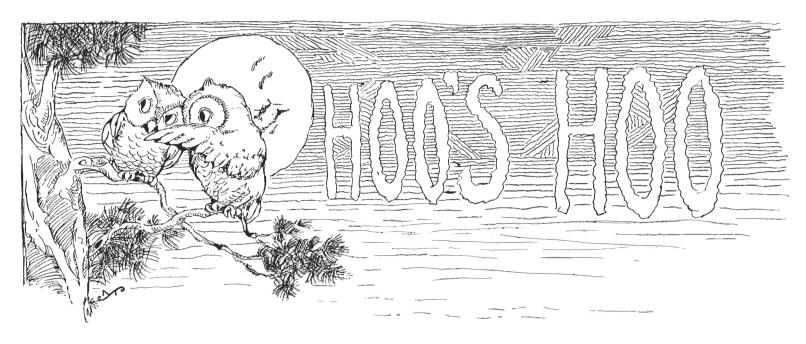

ESTHER YOKEN

"8"

Esther came to us from the Davenport School well versed in her books. Chief among her accomplishments is a high standard of scholarship. She has gained a permanent hold upon our affections by the "perpetual smile" which is ever illuminating her face and easting its ray into many a less jovial heart. Let Sargent's welcome this demure little maid, treat her kindly, instruct her well so that she may one day gladden the ears of her devoted classmates with news of her fame as a gymnastic teacher.

"She is a marvelous good neighbor"

Smartest—Marjorie Cook, William Hennessey.
Shortest—Loretta Kline, Elmer Brouthers.
Tallest—Alice Clement, Myer Goldberg.
Prettiest—Dorothy Dwyer.
Handsomest—Lanphear Buck.
Most Brilliant—Ruth Anthony, Milton Sunderland.
Quietest—Alice Sweet, Gordon Capen.
Stoutest—Dora Lubinsky, Harold Pilling.
Best Athlete—Hilda Hargraves, Saxby Tillson.
Sportiest—Virginia Rogers, Merrill Hawkins.
Class Fusser—Margaret Wardle, Lionel Legoré.

Best Natured—Esther Yoken, Joseph Ferris.

Class Grind—Helen Titcomb, Nathan Winograd.

Most Attractive—Edith Johnson, Saxby Tillson.

Most Musical—Ruth Anthony, Donald Borden.

Class Giggler—Pearl Radovsky, George Sullivan.

Class Joker—Mildred Harris, John Madden.

Most Frivotous—Dorothy Davis, Raymond Menard.

Nerviest—Helen Taber, John Geary.

Class Baby—Doris Whitehead, Harold Johnson.

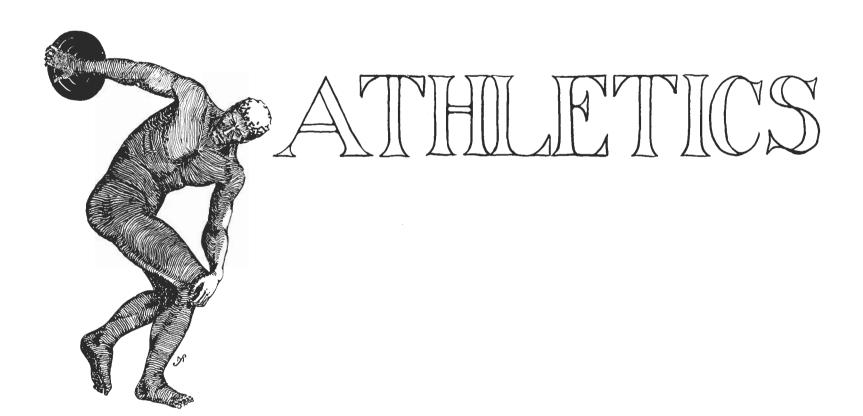

Class Btuffer—Frances Sullivan, Milton Lifrak.

Most Popular—Margaret Kennedy, William Partington.

#### Class Alphabet

A is for Albert, a maiden most fair,
B is for Bliss—there two are a pair;
C stands for Crofton, strong in athletics,
D for Dubitsky, versed in mathematics.
F stands for Fielden, a Swansea commuter,
G for Goldberg, the convincing debater;
H for Hargraves, who, with cleaver in hand,
Presides at recess o'er the ice cream stand.
J is for Johnson, most attractive is she,
K is for Keavy, glad there's no more K. P.
L stands for Lynch, in books well drilled,
M for Menard, with pencil skilled;

N stands for Nash, and Novek, too,
O for O'Neil, of the Pirut Crue.
P for Partington, our class president,
Quite the best to be found, our ideas to present.
R for Roberts, master of the quill;
S stands for Sherman (Foster, not Bill).
T is for Tillson, a versatile chap,
Helping in football, put Durfee on the map;
V stands for Van Blarcom, with ruby lips;
W for Wells, of charmed fingertips;
Y for Yoken, a good natured lass,
Now you must say farewell to our class.

1918 FOOTBALL TEAM

# FOOT-BALL

Starting the football season under the able leadership of "Chick" Rice, an old Durfee star, the Red and Black, after only a few days of practice, defeated the formidable Hope High eleven in Providence, 13-0. And so on down through the list of hard games arranged by Manager Milton Sunderland. Durfee, surmounting the obstacles caused by influenza restrictions, fought her way to success, falling only before the heavy Haverhill outfit and Fairhaven. In the latter game, since Durfee was to play her closest rival, New Bedford, two days following, many scrubs were used, so that the real power of our Fall River team was not shown against them. The worst defeat handed any team was when she swamped English High, 63-0, in the Providence team's first appearance on a local field.

Both games with New Bedford, Durfee's traditional enemy in sports, ended in ties. The first game, played in New Bedford on November 9th, had excited much interest in both cities, as both teams were evenly matched as to size and weight. The hotly fought battle on Sargent Field ended in a 6-6 tie. The second of the two games, played in Fall River

on Thanksgiving Day, was the best of the season. Before a capacity crowd, and urged on by large cheering sections, both teams fought hard

to win the game, which resulted in a 13-13 tie. Eddie and Frank O'Brien each crossed New Bedford's line once, while Semansky was the only scorer for New Bedford. Tillson, the exceptional quarter, did great work for Durfee; Crofton's end runs and line plunges were at all times of the best; and Barry's kick-offs and punts were splendidly executed.

The only other important game of the season was on Peace Day, November 11th, when, cheered on by a large band of students, Durfee defeated Providence Tech, afterwards champions of the Rhode Island League. Neither team was able to cross the opponent's goal line, the only score being made by Spyros' field goal.

## BASEBALL

Owing to poor weather this spring, the baseball squad was a little later than usual in beginning practice. Nevertheless, with five letter men,—Lifrak, Partington, Buck, Spyros and Van Blarcom,—and a squad of thirty, Coach Foley has produced another nine worthy to represent Durfee. Manager Sunderland has arranged an exceptionally good schedule with a number of fast high school teams, in addition to those of the Bristol County League.

The team seemed unable to gain its stride until three games were lost, two of which were league games. Attleboro, in the first game of the season, beat us 5-1; then New Bedford, 8-3 in a ten-inning struggle on Alumni Field; and Holy Family 4-3 in a prolonged contest of twelve innings. Then suddenly the team began to play real baseball. New Bedford was defeated on their home grounds by a score of 5-1; and Attleboro to the tune of 6-1, our team getting thirteen hits in six innings, when the game was called on account of rain.

As THE RECORD goes to press, the two Taunton games loom up, the two games which last year cost us the championship of the league. But our team has found itself, and Taunton will have to play real baseball to have even a look-in. The remainder of the schedule is as follows:

Saturday. May 10—Taunton at home.

Wednesday, May 14—Taunton at Taunton.

Saturday. May 17—New Bedford Textile at home.

Tuesday. May 20—8t. Mary's at home.

Wednesday, May 28—East Greenwich at home.

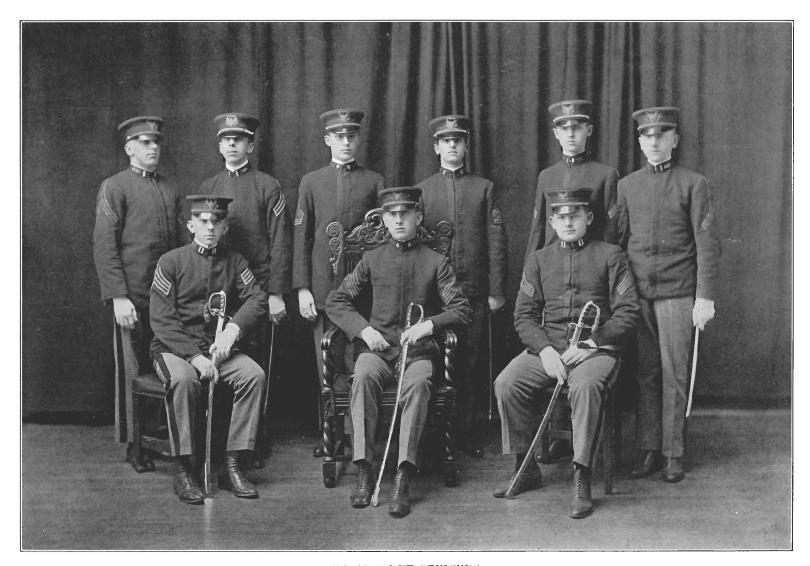

Saturday. May 31—New Bedford Textile at New Bedford.

Wednesday, June 4-North Attleboro at North Attleboro.

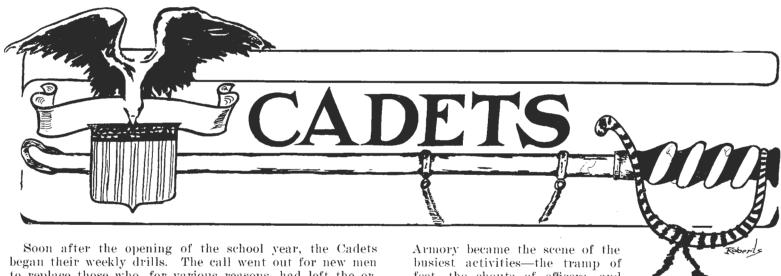

Wednesday, June 11—Holy Family at home, Saturday. June 14—8t. Mary's at Taunton.

Saturday, June 21—North Attleboro at home.

1918-19 CADET OFFICERS

Soon after the opening of the school year, the Cadets began their weekly drills. The call went out for new men to replace those who, for various reasons, had left the organization. A large number responded, boosting the roster to over 150 men, which equals the record set last year for the greatest number of cadets since its organization. Then tollowed several weeks of preliminary drilling, shaking out the awkwardness of the rookies, and setting up in all the feeling of discipline and alertness in carrying out orders, which is so necessary to any military organization. The following commissioned officers were then appointed:

Major Merril Hawkins Adjutant Milton D. Sanford Supply Officer Lionel H. Legare

Company A
Captain Harold J. Pilling
First Lieut. A. Frank Fyans
Second Lieut. James F. Coughlin

Company B
Captain Gordon C. Capen
First Lieut, James H. Callahan
Second Lieut, Joseph F. Medeiros

It did not take long for these officers to become fully acquainted with their duties. Immediately the companies were organized and work started in dead earnest. Every Monday and Wednesday afternoon, for an hour, the State

Armory became the scene of the busiest activities—the tramp of feet, the shouts of officers, and thud of rifle butts re-echoed through the big drill she,—while

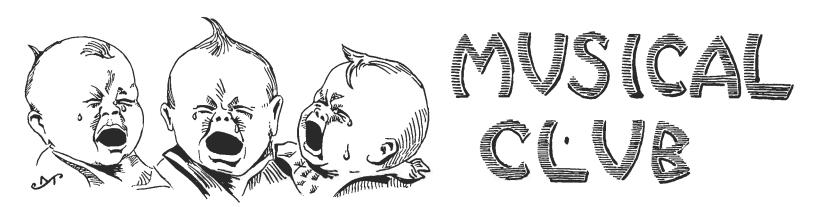

each week the squad and company movements became more exact, and under the efficient leadership of the officers and Major Harrison the snap and precision of execution of commands became more and more marked.

On December 27, the first prize drill was held, in which all cadets of one or more years' standing participated. The success of this drill exceeded the hopes of the most optimistic, while the attendance at the two following drills assured a most prosperouls year, as well as an instructive one.

On April 25, the Batallion Drill and Ball was held, which proved to be a fine exhibition of the season's training as well as the greatest social event of the Cadet year. This Drill was the climax of the year's work, although the Freshman drill was held May 23. At the close of school the annual camp will be held at Oak Bluffs, which, as in previous years, is sure to be the finest kind of an outing for all who attend.

ORCHESTRAL CLUB

The Durfee Orchestral Club, under the competent leadership of Mr. Titcomb, had a most successful season this year. To be sure, it was not without hard work, for the Club rehearsed every Friday afternoon in the auditorium; and each member exerted himself in order that his Club might lead all the others.

On April 11th, the ability of all was put to the test, for it was then that their annual public concert was held. As-

Robert Healy

sisted by the Brown University Male Quartet, they ably played a program of difficult compositions. The large crowd, which was due to the efforts of the members in selling tickets, left the building well pleased.

The Orchestra was utilized very often, as it played at general assemblies and for charitable organizations. Mr. Titcomb may well be proud of the Club's achievements. Following is the personnel of the Orchestra:

Clarinets

Henry Wade Edward Booth Abbott Larter

Cornets

George Rigby James Lord William Sherman Deborah Healy

Horns Betsy Barker Mabel Allinson Trombone
Edward Whalen
Harold Swindells

Piano Pearl Radovsky

Organ Robert McMillan

Drums
Waverly Root

Saxophone Raymond Barker

DEBATING TEAM

During the early part of the school year, the Forum began its successful season under the leadership of Mr. Arthur Racine, head of the Modern Language Department.

It has afforded the students much satisfaction that, though the debating season was very short, the Forum was busily engaged preparing debates for the team composed of Charles Soformko, captan; Lionel Legare, and Joseph Kovalsky, with Myer Goldberg as alternate. Unfortunately, on account of the influenza epidemic, they were prevented from holding a debate with New Bedford, who were defeated by Durfee last year.

The only debate held during the season was with Taunton High School, with the subject, Resolved: That Immigration should be Restricted during the Period of Reconstruction. After a hotly contested debate, it required an hour's deliberation on the part of the judges before awarding the decision, which was given to Taunton, on the negative side.

T is for ten time two girls—us, you know,
H makes hurry— we can't go slow,
E stands for exactness,—work had to be just right.

W gives us work, it would give you a fright,A is for assignments we have had, one a night!R is for 'riting,—we improved, I'll say.

E ager to do better for Miss Lemay.

M iss Seagrave, guardian angel, helping all the while

F indeavoring to make this year count—

R apid calculation—Oh!—"that find the amount!"—
G is for greatness, we hope to attain,
E for exams, which so often came!
N stands for neatness,—our one desire,

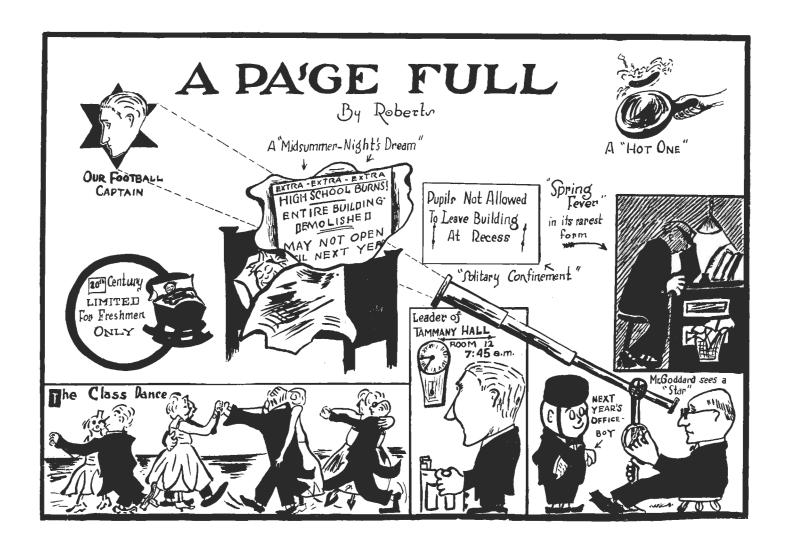

C for courage we all had to acquire;
Y is for you, just watch us go higher.

C is for clearness, of which we have much,
O makes office, we aim for such;
U is for unity—Tech and Durfee,
R for Remington typewriter, you see;

§ for sacrifice, we did our bit.

E is enough, W. E. C. . . . Exit!

### Famous Sayings of Famous People

Mr. Edgeworth:—We'll get a job filling balloons. Turn off the gas! Close the Cave of Winds!

Mr. Pickup:—The next one who talks will stay two hours.

Mr. Titcomb:—Boys, don't hold it so long, you spoil the girls' harmony.

Miss Chase:—The lesson for tomorrow will be—?

Miss Johnson:-Now, in New York, where I came from-!

Mr. Cummings (in Study Hall to bewildered Freshie):—
Take that Cheshire Cat grin off your face.

Miss Langford:—Please be quiet, this is not recess!

Miss Verder:—Well, I'll have about 70,000,000,000 copies made of this steucil.

Miss McHale:—Stop looking at the keyboard!

Miss Wilcox:—Did your mother write this note?

Miss Place:—Have you brought your excuse?

Miss Butler:—Wait a minute.

Mr. Poole:—What have you been doing?

Miss Winward:—Sit down, sit down, children, it's 8.10!

Mr. Pope:—The first goug has struck.

Mr. James Wallis:—Take those rolls of your ears!

Miss Sullivau:—It doesn't take much to make some people laugh.

Mr. Andrus:—May I come in; excuse me.

Mr. Gardner:—Don't leave your seat without permission.

Miss Connors:—Close your machines, girls.

Miss Devlin:—We will now have the secretary's report.

Miss Lemay (in penmanship class):—Count for all your letters, roll on the muscle.

Miss Robbins:—Senior girls should conduct themselves befitting their rank! That is quite enough.

Dr. Breault (making big eyes to frighten):—Where's your slip?

Miss A. Meehan:—Girls, girls, get to work and stop your chattering!

Mr. Carroll (in chemistry class):—Very good, if you had any idea what you are trying to talk about, sit down. I will be here after school today.—That's all I can think of now.

Mr. Sullivan (in shop):—Clean this place up.

Mr. Joseph Wallace:—Now, Shakespeare . . . !

Miss Sherry:—Girls, girls, so much noise!

Miss Seagrave:—You can't expect to go out every night when taking the W. E. C.

Mr. Foley:—Where do you think you are, home?

Mr. Moulton:—Now, I want Durfee to have—

Miss Miles (whose specialty is receiving apologies):—1 demand an apology!

Miss H. A. M. Smith:—Is your theme book ready?

Mr. O'Gorman:—The assignment for tomorrow is—!

Mr. Woods:—Now, in order to be expedient—! (In act of biting lips in disgust of class):—Oh! the boys of today! No backbone, any of you, you jelly fish! Can't you fellows see the point?

Mr. McIntyre:—Cau't you read the Clock?—The following pupils are due tomorrow morning at 7.45.—Now, don't think you're going to put anything over on me, 'cause you're not!—Think! Think!—Just take my word for it.

### THINGS THAT NEVER HAPPEN

Menard '19

Mr. Moulton got "sore."

The tardy room was abolished as there is no one to occupy it, and Mr. McIntyre declines to reign alone. His lectures fall upon empty chairs.

At the lunch counter—Did I give you too much change?

Mr. Moulton issuing an order to teachers:—No assignments from now until June for seniors.

In typewriting room—a large sign telling pupils that one may look at the keyboard and use erasers when necessary.

A crop of freshmen coming in all taller than the tallest senior.

Boys being allowed to dance with the girls at recess.

Miss Miles when she didn't want an apology.

Soforenko with a "flunker"—Crofton with five A's.

Kelly going a whole week without being late.

Alice Sweet "cutting up" in the corridor.

Ferris in a buterfly dance.

Mr. Small lost his temper.

Mr. Wilbur without his usual smile.

Mr. Carroll wore a new tie on December 12th.

Mr. McIntyre let somebody get away with something.

Gordon Capen said three words one day.

Crook went home from school alone on October 23rd.

Ruth Anthony not prepared in Latin.

Gallagher wore an orange tie on March 17th.

Geary with fewer than six books under his arm.

Madden not prepared in Greek.

Pilling forgot to wear his cadet uniform on January 6th.

Hawkins stayed away from a dance one night.

#### Magazines from the Durfee Book Store

All-Story—Senior girls chatting.

The Green Book-Freshmen.

Life-The Senior dance.

Snappy Stories—Seniors to be—1920.

The Literary Digest—Any of Mr. Wallace's English classes.

Detective Stories—Any of the office force hunting up "Period-Skippers" or missing excuses.

Pictorial Review—The Record.

System-What Mr. Moulton likes.

The Blue Book-Day before mid-years.

Woman's Home Companion—Books the girls take home.

Saucy Stories—Jokes told in a study period under the teacher's nose.

Review of Reviews—College Board exams.

Physical Culture—Every other Wednesday.

Good Dressing—Senior girls at graduation.

Popular Science—There ain't no such thing!

Outlook—Pretty poor.

Outing—One thing we didn't have.

Independent—How we'll feel after graduation.

Punch—What all Durfee's teams have.

Revue des Deux Mondes—The absent list for Tech and Durfee.

Popular Astronomy—Seeing the "stars" at the Savoy.

Flying—How we come out of school at 1.56.

The Country Gentleman-Mr. Moulton.

Judge-Mr. Wallace.

#### Maxims

A "D" in athletics means two on a report card.

For "Cribbers"—Labor to keep alive within your breast that little spark of celestial fire called conscience.

Don't wait for someone else to go ahead. Break your own path.—Tillson and Crofton in football.

Managers never heard any good of themselves.

Gray slips make cowards of us all.

Where there's a will there's a contest.

Of two evils, choose the prettier.

Make love while the moon shines.

Nonsense makes the heart grow fonder.

If every dog has his day, every cat has his night.

Take care of the studies and the marks will take care of themselves.

The more haste, the less read.

A little knowledge is a dangerous thing, when the report cards come in.

Circumstances alter cases, just as low marks make long faces.

A little invention is good for a lot of excuses.

Too many D's spoil the report card.

Absence makes the work pile higher.

A book in the hand is worth two in the library.

#### Little Orphant Annie

BY THE EDITOR
(With Apologies to James Whitcomb Riley)

Now little Orphant Annie says, when there's studying to do, With the theatres all invitin', or perhaps a dance or two; Or you want to go a-callin', to while the hours away, When you've got a few exams a-comin' off nex' day,—You better mind yer parents, an' yer teachers fond an' dear An' stay ter home an' study, so's yer'll pass in math this year,

An' get to bed at nine o'clock 'stid of goin out Er the Tardy-Man'll git yer

Ef you

Don't

Watch

Out!

#### The Tale of the Two Freshmen

Once upon a time there were two Freshmen, late for school, who endeavored to plead for Themselves with Tact and Wisdom.

One concealed certain Facts prejudicial to his Cause; upon which the Principal said: "If you had confessed the Truth, it would have biased me in your Favor; as it is, I centence you to two Mornings at 7.45."

The other stated his Case with absolute Truth and Sincerity, concealing Nothing; and the Result was that he received the same Punishment for his Misdemeanor.

#### Morals

This Fable teaches that Honesty is the Best Policy, and that the Truth should not Be Spoken at All Times.

Teacher—"I hope you will have a merry Christmas and come back knowing considerably more than you do now." Freshman (trying to be polite)—"The same to you."

In English—"Veto" means "not to pass." Level—"Gee, I've been 'vetoed' twice!"

Mr. Poole—"What is the difference between sight and vision?"

Soph—"If you call a girl a vision she'll knit you a silk tie;—if you call her a sight—Good night!"

#### WATCH OUT, BOYS!

He who loafs and gets away,—Will live to flunk another day.

New Bedford Student, to H. H.—"Your school never turns out gentlemen."

H. H.—"No, our school allows them to go right on and graduate."

#### OH, THOSE SOPHOMORES!

In English—"How was Ivanhoe dressed for the tournament?"

Soph—"In his knight dress!"

Put them all together. They spell—

Fierce lessons,
Late hours,
Unprepared,
No recitation,
Kicked out.

A word that means the world to me.

Les Inseparables-Kelly, Ferris and Sherman.

"Does Mr. Small favor the modern dances?"
"Well, I know he doesn't like the Latin 'trot'."

Segal (to Geary)—"Hey, Jack, how about that two-bits you owe me, did you forget it?"

Geary (in a hurry)—"Not yet, give me time."

Most things go to the buyer, but coal goes to the cellar.

Mr. Small (during a difficult translation)—"Lenaghan, you look as cool as a cucumber in that back seat; suppose you try this passage."

Buck—"Ha, ha! You've got him pickled now!"

"Chick" Rice—"What this squad needs is life!" Crofton—"Aw, no! Thirty days is enough."

Campbell—"You wouldn't punish a fellow for something he didn't do, would you, Mr. Pope?"

Mr. Pope—"No, what was it you didn't do?" Campbell—"My homework."

"Caesar sic de cat in de curru egesse."

Freshman's translation—"Caesar sicked de cat on de cur and I guess he licked him."

It is easy enough to be pleasant
When the A's come rolling in;
But the fellow worth while,
Is the one who can smile
When the D's come flocking to him.

Lifrak wonders why he was thrown out of class when he asked Mr. Horne (gone but not forgotten) what was the matter with this sentence: "Wanted—Boy to open oysters fifteen years old."

Judge—"You are accused of stealing a gold watch; have you anything to say for yourself?"

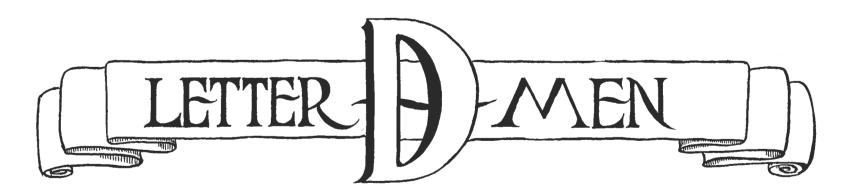

Prisoner—"You are wrong, your honor; in the first place, I didn't steal the watch, and in the second place it wasn't gold."

A new automobile hearse has been invented. They say people are just dying to ride in it.

#### AW, 'GWAN!

If there were four pigs and a chicken in a pen, and you called the chicken a pig, how many pigs would there be?

Four—calling a chicken a pig doesn't make it one.

### BEST WISHES

of

HARRY P. BROWN

## The High School Graduates SECRETARIAL COURSE

More and more, as the world progresses, the High School Graduate, trained in a good business school, is demanded in the best business offices.

This school has an enviable reputation for service. It has its graduates at the head of the office department in all leading business offices. The principals of all departments are the most highly trained and experienced specialists, and, moreover, this is the only school in Southern Massachusetts that maintains a well-equipped Bureau headed by an Employment manager.

The Secretarial Course is the most popular. It is a source of much pride to us to be the only School in the State outside of Boston equipped with a faculty competent to handle this course.

Call or send for prospectus containing full particulars.
